VIOLATION OF RULES:

All entries of any kind or character and Participants in this annual exhibition are subject to these rules and regulations. Any violations will subject Participants to such penalties as Cattlemen's Congress may order and/or penalties prescribed by law.

ALTERATION OF CONFORMATION AND STRUCTURE BY PROHIBITED SUBSTANCE:

Prohibited Substance and/or Unethical Fitting defined as: The injection, use, or administration of any drug that is prohibited by Federal, State, or Local Law, or any drug that is used in a manner prohibited by Federal, State or Local Law; the injection or internal or external administration of any product or material, whether gas, solid, or liquid, to an animal for the purpose of deception, including concealing, enhancing,

or transforming the true conformation, configuration, color, breed, condition or age or by making the animal appear more sound than otherwise would appear; the administration, use or application of any drug or feed additive affecting the central nervous system; the administration of diuretics for cosmetic purposes, tissue manipulation, removal, surgical attachment or otherwise to change, conceal, enhance, or transform the true conformation or configuration of the animal; attaching to the hide foreign objects including hair or hair substitutes, cloth or fiber for the purpose of deception; any physical or physiological attempt to alter the natural musculature or weight by use of injections or ingested material not conducive to the continued health or marketability of beef. REMOVAL OF EXHIBITS: With the accepted entry in this show, Participants are expected to keep their animals on grounds until the designated time for release, unless otherwise provided for in these regulations (refer to Arrival and Release Dates and Times). If necessary, individual animals sold in auctions on the show grounds may be released by securing the consent of the management.

FORCE MAJEURE AND GOVERNMENTAL REGULATION: In view of the fact that the Cattlemen's Congress is a non-profit corporation depending to a great degree upon the contributions and services of a substantial number of donors and volunteers, as well as the benefits provided by Cattlemen's Congress to the general public through education and related services as set forth in the Preamble to these General Rules and Regulations, Cattlemen's Congress deems it appropriate and prudent to be excused from liability, as set forth below this paragraph, in the event of early cancellation of its events, operations and activities by reason of force majeure and/or governmental regulation. 2. All animals exhibited must be recorded in the name of the exhibitor prior to December 15, 2020. A paper copy of the registration paper or an affidavit of registration must accompany each entry to the show. All cattle will show by the breed percentage rules adopted by the AGA Board of Directors that determines animal category. Animals are placed in the category based on the rule of the year that animal was born: "Gelbvieh bulls and females sixty-nine point one (69.1%) percent to one hundred (100%) percent by category will show together in the Gelbvieh show. A Gelbvieh female or bull that is at least 69.1% Gelbvieh or more and qualifies for the Balancer Trademark can choose whether to show as Gelbvieh or Balancer at the time of entry. No changes can be made after the entry deadline. To qualify for the Balancer® Show all cattle must meet the American Gelbvieh Association's Balancer trademark rules for registration as a Balancer. Exhibitor must designate Gelbvieh or Balancer as breed on the entry form."

3. Proof of satisfactory semen evaluation for bulls twelve (12) months of age or older as of December 31 must be submitted at the time of check-in. Bulls over two (2) years of age must have a semen evaluation certificate issued within 90 days of the show.

6. All protests against exhibitors, dealing with age or genetic background of show cattle, must be in writing and signed by five (5) active members of the AGA, accompanied by one hundred fifty (\$150.00) dollars in cash, unless more is required by the show, and then presented to the show Superintendent within twelve (12) hours before starting of the show.

8. Show committee prohibits the use of powders of any color, false tailheads and glued-on hair or hair-like substances.
9. All bulls must show with a noselead. Entry into the show ring without one will be an automatic disqualification. The right to disqualify from the show any animal deemed unmanageable is reserved by the show committee.

15. Classes will be split as evenly as possible after processing. Splits will be decided using total entries at processing.

16. Cattlemen's Congress will stall all Gelbvieh and Balancer Open Show entries. Direct all requests to Cattlemen's Congress on entry form.

17. During processing individuals will take scrotal measurements. To minimize variation in data collection, individuals collecting data will process all entries.

18. After animals have left the chute following initial processing, they may be re-measured once with the payment of \$50 per head at time of re-measurement. The second measurement is final and will replace the original measurement. Re-measurement will only be done at the conclusion of regular processing.

19. Sweater vest is required for all handlers during the Open Bull & Female shows. Vests will be available at check-in or call AGA office prior to the show.

GELBVIEH PEN HEIFER AND BULL SHOW

SUPERINTENDENT: Jake Renner

JUDGE: Cheramie Viator, Tomball, TX

SHOW: Wednesday, January 5, 8:00 a.m.

Heifers & bulls competing in the Gelbvieh division must be 69.1% Gelbvieh or greater and registered in the AGA Herdbook. Heifers & bulls competing in the Balancer division must be registered in the AGA herdbook. All animals must be properly tattooed and will be inspected at the show. The same heifers & bulls can not be entered in a Pen of 3 and Pen of 5. The entries and alternates must be declared by the check-in time and processing time. After animals have left the chute following initial processing, they may be re-measured once at the conclusion of regular processing when the payment of \$50.00 per head is received by the AGA staff. The second measurement is final and will replace original measurement. The following performance data must be provided to the judge prior to the show for each bull entered: Bull identified by name or number, bull birth date, Gelbvieh percentage, weight at check-in, scrotal measurement at check-in, and weight per day of age calculated during check-in, and EPD's, for individual and pen. Proof of satisfactory semen evaluation for bulls twelve (12) months of age or older as of December 31 must be submitted at the time of check-in. Neither actual nor adjusted birth weight, weaning weight or yearling weight will be provided.

Class will be determined by calculating the average age of the pen. If an alternate is used, age will be recalculated and the pen will be placed in the appropriate class. Young bulls may be shown in an older pen class only if there is a pen class corresponding to his birth date. (i.e.: an April bull may show in the March class, but a June bull cannot show in any class because there is no June class.) All measurements are to be taken after arrival. Data forms will be provided by the AGA.

LIMOUSIN PEN BULL SHOW

SUPERINTENDENT: Mallory Blunier

JUDGE: Jonathan Perry, TN

SHOW: Tuesday, January 4, 2:00 p.m.

Bulls competing in the Limousin pen show must be registered and seventy-five percent (75%) Limousin or higher as computed by NALF. With the addition of a specific Lim-Flex pen show (see rules below), only one bull per Limousin pen may be 75% Lim-Flex (purple papered). Bulls that are 75% Limousin but do not meet the Lim-Flex criteria are only eligible for the Limousin pen and carload shows. This year NALF will allow the inclusion of one high percentage (NXM) in the Lim-Flex pen bull show. (Two out of the three bulls in the pen would be purple papered Lim-Flex). Lim-Flex 75% bulls must be designated at time of entry as to whether they're being entered in the Lim-Flex pen show or the Limousin pen show.

Bulls shown in the Limousin pen show cannot show in the carload show, the Lim-Flex pen show, but are eligible to enter bulls from the pen to show in the open show. If an alternate for the pen (or Carload) show changes what class the entry will show in, NALF staff must be notified one hour before the show beginning. Alternantes cannot move a Limousin Pen to the Lim-Flex show or a Lim-Flex pen to the Limousin Show. Bulls out of leased cows are not permitted in the Limousin pen show.

Each exhibitor in this show will pay a fee of one hundred dollars (\$100) per head/per pen entered. Entries are to be entered online at www.cattlemenscongress.com. All fees must be paid in U.S. funds.

Classes will be determined by the oldest bull in the pen and according to the following ranges in birth dates:

Classes

- 01 Pen of Three Limousin Bulls calved January 1 - April 30, 2020
- 02 Pen of Three Limousin Bulls calved May 1 - August 31, 2020

LIM-FLEX REGISTERED PEN BULL SHOW

Bulls competing in the Lim-Flex pen show must be registered as Lim-Flex and have purple registration papers from NALF. This year NALF will allow the inclusion of one high percentage (NXM) in the Lim-Flex pen bull show. (Two out of the three bulls in the pen would be purple papered Lim-Flex). Lim-Flex 75% bulls must be designated at time of entry as to whether they are being entered in the Lim-Flex pen show or the Limousin pen show.

In order to meet Lim-Flex registration criteria, animals must be 25 to 75 percent Limousin and 25 to 75 percent Angus or Red Angus, with a maximum allowance of another breed or unknown breed composition of 12.5 percent (1/8th). The sires of registered Lim-Flex animals must be registered with NALF or the sire's respective breed association and have documented pedigree information for both parents. The dams of registered Lim-Flex animals must be documented as from registered sires included in either the NALF herd book or that of another breed association and have actual percent blood information recorded.

Bulls shown in the Lim-Flex pen show cannot show in the Limousin pen shows but are eligible to show in the open Lim-Flex or Limousin open shows. If an alternate for the pen show changes what class the entry will show in, NALF staff must be notified one hour before the show begins. Alternates cannot move a Limousin Pen to the Lim-Flex show or a Lim-Flex to the Limousin show. Lim-Flex animals must be out of cows that are in the exhibitor's membership or exhibitor's family membership(s). Animals out of leased cows are not permitted in the Lim-Flex pen show.

Classes will be determined by the oldest bull in the pen and according to the following ranges in birth dates:

To be eligible to compete per AAA rules, the entries must be recorded in the sole name of the junior exhibitor, and the issue date on the registration certificate must conform to the individual show's requirements regarding ownership. The AAA ownership applies to processed date, not sale date.

Exhibitors must have the original registration certificate issued by the American Angus Association available for inspection at the show for each animal or another current proof of ownership issued by the American Angus Association pedigree look-up. Any animal, upon check-in, which does not have a legible permanent identification mark (ear tattoo marks, freeze-branded marks or hot-branded marks) corresponding to the permanent identification mark on the registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be re-identified (tattooed/branded) and re-checked at the show.

Any female shown with a calf at side: the calf must be the cow's most recent natural calf, and the calf must be registered by show day and have the original registration certificate at check in.

Only one person at a time shall lead an animal into the show ring.

Exhibitors who participate in shows per the American Angus Association are subject to the Association Rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2: Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2: Association Rules; Rule 800 Series; including Rule 800 - 810. These rules can be found at www.angus.org.

Altering the conformation and/or appearance of an animal for exhibition is prohibited. This includes the use of chin straps, covering of white skin, false tail heads (or use of any false hair), with the exception of false tail switches. The use of graphite, powders, hemp or other similar substances used externally are also prohibited. Other prohibited products include those used internally such as steroids, illegal or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation will be barred from showing.

At any show for which the American Angus Association participates, no exhibitors, individuals assisting exhibitors, or member owners at such show shall be allowed to use any coloring agents on any animal exhibited. The Association may adopt and implement various tests designed to monitor this prohibition, including but not limited to a "white towel" or "white glove" test. No aerosol cans or other pressurized containers will be allowed in designated line up areas.

All animals exhibited are subject to DNA marker or blood type test to verify accuracy of parentage as covered under the Association Rules and for other testing as required by the individual show.

Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association Rules, including the barring of a registered animal from a livestock show at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.

INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS

NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics", fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer, and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood or other substances from the animal to be used in testing. Animals not entered in an event which culminates in the animals entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer, transfer to the laboratory and analysis of the sample are correct and accurate, and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except the external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.

6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.

7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.

8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.

9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.

10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that

any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including *Fairs and Expositions* and any special notices to members.

11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.
