# Trip for 2 to the 50th Annual Canadian Red Roundup Sale

Donated by ARAA & CAA

If you are a progressive Red Angus breeder, here is a glorious opportunity to scratch an item off of your "bucket list"! Everyone has at one point or another been touched by the mighty Canadian Red Roundup Sale. In 2022 we are celebrating the incredible milestone of the 50th Anniversary of the phenomenal Red Angus event in Canada. The last few years has been focused around the Junior youth movement. We have started a \$100,000 Jr. Futurity Show at the Red Roundup and will come to fruition this fall in Olds, Alberta (we are paying the top 10 placings). This show was started at the Red Roundup in 2019 with the kids buying heifers in the sale that year and showing them back at Red Roundup every year since. It's been a mindblowing scene and will not fail to impress this fall as well.

The package includes: Airfare for 2 from anywhere in the USA to Calgary, Alberta. Hotel rooms for 4 nights, all meals and beverages, a rental car for 4 days and a \$1,000 credit in the 2022 Red Roundup Sale!

Opportunities like this one don't come along very often... Abigrace 112J has as much genetic prowess and future earning potential as any female ever offered in the Red Angus breed. Forget about her exquisite looks and royal lineage for a second and just focus on her genetic predictions... she ranks in the top 10% or better for 10 traits, including carcass EPDs that rank in the top 5% for Marbling, the top 2% for YG and CW, and the top 1% for REA and GM!

Bieber Hard Drive Y120 • Sire of Lot 1

Her dam, Abigrace 636D, is already a breed superstar, earning the praise and admiration from some of the top cowmen in the industry. Not to be overshadowed by her breed leading full brother, the \$105,000 9 Mile Franchise 6305, Abigrace 636D has gone on to make some of her own noise around the breed with progeny like PIE Commander 0100, the \$77,500 Quarterback son owned by C-Bar, Berwald Red Angus, SD, and Buffalo Creek Red Angus, TX.

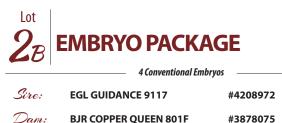

Her sire, Bieber Hard Drive Y120, is one of the most sought-after bulls in the breed and rightfully so, earning one of the best proofs in the business with unreal growth and carcass EPDs. On top of that, he is known as one of the best female producers in the country and his daughters are a rare and superhot commodity.

### Consigned by Bootjack Cattle Co. / Paul Haugen / Lewistown, Montana / 406-366-2855 / bootjack@midrivers.com

BJR Copper Queen 801F (pictured as a yearling) BJR Copper Queen 801F [3878075] is a daughter of the \$150,000 outcross Platinum and the many times sale topper & syndicated Scarlet 2201. 801F ranks in the top 1-10% for GM, WW, YW, ADG, HPG, CW, REA! 801F's MGGDam [7166] by Rambo 502 is a full sister to the dam [7184] of Grand Prix that was National champion in US & Brazil. Their dam was the \$50,000 Miss Forster Coppertop 591 with a 120 MPPA!

 Backed by an incredible cow family from R. A Brown Ranch, this female possesses everything we hoped she would. Bingo 581B stamped this daughter with an extended front end and bold rib shape that she carries all the way down her spine. She sits down on a great set of running gear and gives a striking, up-headed look from the side. This is a cow in the making with a show heifer presence ready to go to work in both aspects. If you're looking to add substance, longevity and power to your herd, then this is your gal!

Red Blairs Bingo 581B • Sire of Lot 3

Donor 27X is the kind of female we think has earned the right to be a donor. Bayberry 27X is from the well proven Bayberry cow family. You will find donor females throughout her pedigree. No shows, no ribbons but she has proven she can produce without a miss and still looks incredible at 11 years of age. She is a typical Mulberry female with a very desirable udder and a great set of feet. Daughter 4H was one of the first in our keeper pen of heifers to cycle and is confirmed to that breeding date. Two year old daughter 11G is doing a great job at Brylor Ranch as well as a daughter working hard at Leeuwenburgh Angus and a son in the Granum herd.

Embryo package Donor Red MEM Bayberry 27X x Red Minburn Copenhagen 3Y: Copenhagen 3Y is quickly becoming a rare find especially after the most incredible set of females at the legendary U2 Dispersal in AB Canada a couple of years ago. If you did not witness that event the numerous Copenhagen 3Y daughters stole the show and sold like hotcakes! This mating has a very high potential to produce the next legend!! Selling 3 - #1 Frozen conventional embryos. Guarantee of one pregnancy if implanted by a certified embryologist. Embryos sell FOB Hawkeye East – IOWA

Embryo package Donor Red MEM Bayberry 27X x Red Brylor New Trend 22D: Red Brylor New Trend 22 D needs no introduction with his proven female producing Elite Sire status. New Trend 22D semen is getting fairly rare these days so here is an opportunity with a very proven New Trend X Mulberry mating. This mating is a bell ringer!! Selling 4 - #1 Frozen conventional embryos. Guarantee of two pregnancies if implanted by a certified embryologist. Embryos sell FOB Hawkeye East IOWA.

Red Brylor New Trend 22

Red Minburn Copenhagen 3Y

### Lot 5

J130 is a daughter out of MANN RED BOX 55C and the lead donor for Zerr Red Angus, C BAR MIMI 707E a flush mate to the 2019 NWSS Grand Champion Red Angus Bull and Female. This open heifer is smooth in her stride, long and deep through her rib. I love how she has that combination of softness and power. With out a doubt I believe J130 will be a solid representation of her legendary Mimi tribe reputation. Selling 100% possession.

### Lot 6

The dam of Lot 6 came through the elite ranks of the Bet On Red Sale in Reno, originally selling to the HereAfter Cattle Co. group from the famed Scotty Knaub program of Montana. At the HereAfter Dispersal, she was the Chain Ranch choice and one of the top sellers in that day. What an incredible cow she has become, landing in the Chain Ranch Donor Pen. Don't miss her rock solid pedigree, coming from the Jolene cow family and sired by Bieber Rough Rider.

3656 is a heavy hitter in the Chain Ranch Donor Program touting a 108 MPPA from a very large contemporary group of registered Red Angus cows. A direct Sakic daughter tracking back to one of the foundation herds of Oklahoma – the Joe Waggoner herd – renowned for longevity, milk and maternal traits in his cattle. The exciting mating to Reform or the NWSS Grand Champion – Mimi E381 makes this an embryo choice you don't want to miss out on.

### Lot 8

This powerful Donor Dam records an astounding 858 lb weaning weight and is another daughter of the famed Damar "signature cow" Damar Mimi W085! Her beautiful design and exceptional milking ability cannot be missed in the Chain Ranch pastures of Oklahoma. Your choice of the exciting matings of Reform or the NWSS Grand Champion – Mimi E381 (yes this mating is linebreeding and doubling the remarkable Mimi W085 genetics twice in the pedigree of these future calves – lookout this one could be off the charts!)

F139 is the kind of cow you can build a program around, she caught the eye of every person that has gone through our fall calving herd at the house. Now there's no need to tell you what the picture and pedigree shows, but what I will tell you is that she is a big beautiful cow with the right kind of udder. It's quickly becoming her time to shine and we are so excited to see what this young donor will do!

MRLA Resource 137E doesn't need an introduction. Calves sired by him this fall have been topping the sales with numbers like; \$116,500, \$46,000, and \$26,000. Semen is in high demand. You could mate this guy to a donkey and get something worth selling. All jokes aside, we are excited to see what a mating like this will produce. You bet we will be putting in quite a few of these eggs in this spring. Red Lazy MC Cowboy Cut 26U is another outcrossed bull that doesn't need an introduction. He's already proven himself, siring multiple national champions and the famous Yardmaster bull. It would be crazy to know the amount of money he's made his owners over the years. Combining his performance including a whopping 926 lb weaning weight and balanced phenotype with F139 is something we have been waiting for!

Feddes Lakina D6 easily stood out in the 100+ heifers in the 2016 Feddes heifer crop as our \$11,000 choice. D6 has been a favorite since she got off the trailer from Montana, just as she was the day we chose her. We knew we had the right one when she was both Chuck and Jake's top pick as well. Of course Saga needs no introduction. Her dam, Y17 is the high MPPA cow of the Feddes cowherd as well as the dam of the ever popular Feddes Silver Bow. D6 has more than exceeded our expectations as she's matured into a big bellied ultra feminine fronted, beautifully uddered, super attractive, big boned and sound female, that always gets the comment "who's that?" from visitors looking at our cattle. Her disposition is second to none, calm and easy going as if she's an old seasoned show heifer but has never worn a halter.

We've only offered one other daughter before this choice, her natural calves have been standouts, her ET heifers are top notch replacement prospects, and the bulls are stout, heavy muscled studs, several of which are being prepped for the 2022 Ludvigson-Nebraska "Cornhusker" bull sale. We plan to use her most recent natural bull calf VETO Justified for natural service. Along with being just the second daughter we've offered this is also first genetic opportunity through embryos. This choice includes buyer's pick of two WFL Merlin and two Bieber Brave heifers. All born September 2020. The heifers won't be in OKC but videos of each along with one of D6 will be available on our Facebook page Veto Valley Farms, website vetovalleyfarms.com, or can be requested and sent by email.

They're a cookie cutter set of deep bodied, stout, attractive maternal sisters, we are extremely proud of. We'll work with the buyer in helping to make this choice if needed along with helping to arrange shipment. This is a tremendously unique opportunity to add her genetics, maternal and phenotypic excellence to any program. The 4 sisters that aren't chosen will undoubtedly be replacements for us alongside their Bieber Forefront maternal sisters. D6 is truly a cow that does no wrong. The choice will make a lasting impact wherever she goes.

Selling a frozen package of 4 # 1 embryos. Guarantee 2 90 day pregnancies. FOB Hawkeye East.

This is one legendary mating right here now! Mulberry who has been referred to as the "King of the World" after he was named Premiere sire of the 2009 World Angus Forum show in Canada (Largest Red Angus show anywhere on the planet). He was also in his own right the back to back years Grand Champion bull at Agribition and Farmfair in 2005 and 2006. His daughters carry his reputation forward! They are a thing of beauty. Freyja 29E also holds claim to back to back Farmfair wins and also was named Grand Champion Feamale at the 2018 Agribition. She was first discovered at RRUP as the high seller in 2018 at \$15,500 for a half

> interest. She has produced two heifer calves now at \$14,500 and \$12,000 also 3 flushes have avg'd \$10,250. A daughter was also just fresh off being the record breaking bred heifer at RRUP in 2021 at \$40,000!! This cow can produce with the best in the world. Make today the day you start the new year off with a major impact statement in purchasing these eggs and solidifying your place in Red Angus history.

### Red BCC Renee 44F

### Renee 44F was a \$10,500 heifer at RRUP 3 years ago and now her first two naturally born calves have avg'd \$22,500. Unreal!! She is so beautifully constructed you would be amazed at her rib shape her udder quality and her overall dimensions. She's now mated to Resource 137E for her upcoming 2022 calf and then will be pulled out of production for further ET work. You gotta fast-track the good ones!! See her son named Resolution in Lot 72 in this catalog.

REA FAT

The sire of the embryos is none other than Mulberry-just the thought of this mating is enough to make one shiver in anticipation! He is the only bull in the red angus breed to have a theme sale in his honor on both sides of the border too. Think back to 2011 in Emporia Kansas at the 1st sale named after him called the Mayhem ..... the right to clone this magnificent beast sold for \$37,000

### Lot 21

Royce's Sensational was purchased for \$54,000 in the 2017 Denver Mile High Sale. Sensational comes from the McPhee Red Angus herd of Lodi, California. The McPhee family are long-time Red Angus breeders known for cattle that consistently reach the top 25% (or higher) in breed EPDs. Sensational had been a winning show heifer for Royce McPhee. In short, she embodied structure + performance. She was known as the EPD Queen at JCL.

Sensational has passed on, but 2 daughters remain in our herd, and Fall 2020 calves on the ground look amazing!

Here's an opportunity ... to buy her genetics!

## Lot 22

Bieber Adelle 297Y is one of the top donor cows to come out of the Bieber program. She has produced a long list of high quality progeny, but is probably best known as the grand dam of two of the hottest bulls in the Red Angus breed today, Bieber CL Stockmarket E119 (at Select Sires) and Bieber CL Energize F121 (at ABS). Oracle excels in growth and carcass traits and has sired a lot of top end cattle all over the country over the last several years. Combining these two proven producers gives you a great across the board EPD profile that can fit most any production system with an attractive, fault-free phenotype. Selling one package of 3 conventional embryos with a guarantee of 1 pregnancy, stored on farm in lowa FOB.

 Bar S Lady
 7748 is a maternal sister to the 2020 National Champion Pen of Three Females.
 7748 was

 herself a Division Champion in the 2018 Bred & Owned Show at the NAJRAE. This June heifer is entered
 in the National Red Angus Show January 4th. Check her out in the stalls -- she is an amazing show
 heifer and will make a sensational cow.

 Selling 4 IVF Non Sexed Beartooth embryos.
 Embryos are at Bluestem ET Center in Kansas.

Kyle Gilchrist note: At catalog printing time, the Kansas fires had just swept through the Bar S Ranch leaving a path of total destruction for many ranch families in the area including the Dickersons losing their house, barns outbuildings and over 100 head of their cattle herd (may be much more devastating once all the loss is discovered). We will be holding fundraisers for the Dickersons and other Kansas families during both of the Red Revolution auctions in Oklahoma City. -- tune in via DVAuction or CCI.Live and help out or call with any donations you may have.

In light of the recent tragic and devastating fires in Kansas this fall, Steve & Cindy Maier have decided to donate all the proceeds from one of the packages of five embryos they are selling in OKC to the Dickerson family at Bar S Ranch in Paradise, KS. David & Stephanie Dickerson and their family were preparing our two heifers for the sale when on 12/15/21 the Four County Fire roared through the heart of their ranch, burning down their home, show barn, equipment and grassland and killing over 200 head of their cattle. We will be selling raffle tickets and the winner will be able to pick from the two embryo packages we are offering.

A. C-Bar Ms Stony A302 x PIE Quarterback 789 – offering five (5) frozen conventional embryos with the guarantee of two (2) pregnancies.

B. Cbar Miss Mimi 458B x PIE Quarterback 789 - offering five (5) frozen conventional embryos with the guarantee of two (2) pregnancies.

Genetic opportunity knocks and you really can't go wrong with either one of these embryo packages. The sire, PIE Quarterback 789, topped the '18 Pieper to 9 Mile Ranch in WA, and his first major group of progeny took the breed by storm this spring. He is now a very proven calving ease and carcass sire, with a -6.1 BW to 124 YW EPD spread and a .78 Marbling EPD ranked in the top 5% of the breed.

The donor dams, A302 and 458B, come from two of the most time-tested cow and successful cow families in the breed, the Stony's and Mimi's. Ms Stony A302 needs no introductions as she was the '16 NAJRAE Cow/Calf Champion. Her embryos and progeny are some of the most sought after genetics around the world. Miss Mimi 458B, is the powerful daughter of the famed Damar Mimi W058 cow. This past fall her Red Box daughter was named Grand Champion Female at both the prestigious '21 NILE show in Billings, MT, and the '21 Red Western Classic Show in Reno, NV.

Stony 818F has tremendous eye appeal with soundness and balance. A past BJR Donor, she is an exciting new addition to our donor pen. Her MGdam [W909] is a full sister to W914 [that produced Eldorado 114Z & Legit 133E that scanned a 10.23 Marbling] & W928 [that produced the picture females of A302 & A305 that we all admired @ C-Bar]. Embryos from these mentioned donors have demanded up to \$3,000/embryo. Stony 818F MGGGDam [BJR Ms Stony 4X-516] produced a past National Champion Female. If you want a cow family that can produce the show ring type and are profitable genetics in the sale ring, look no further. Guaranteed 1 90 day pregnancy per package if implanted by a certified embryologist

Package A: MLRA Resource 137E — Resource has taken North America by storm siring the \$130,000 Township and heifers at \$116,500/\$75,000/\$30,000 at major sales this fall. He had 30 daughters at U2 Dispersal average over \$9,000! Semen is demanding over \$400/straw. Resource 173E is a total outcross [back to SAV Resource] bull that is adding tremendous type and shape to cattle.

Package B: Red Six Mile Parabellum 675G — Parabellum is dark red bull that combines elite phenotype with a well balanced EPD profile and superior foot quality. Sired by the breed changing Red Six Mile John Wick 882E whose semen has been consistently selling for over \$1000/ straw and a Kuruba dam with a near perfect bag. With his sire's semen in short supply, look to this son to continue the family tradition of moving the breed forward.

Here is a heifer that is loaded with<br/>genetic lead-time and she comes from a cow family that we know has worked time and time again.<br/>Her dam, Stony W928, is the powerplant behind this very successful family line. She is also the dam of<br/>Ms Stony A302, the elite donor at C-Bar that has been one of the most sought after matrons in the breed<br/>with embryos usually selling for over \$2,000 apiece!

When the dust settles this spring, there just might be a little buzz around the industry that is focused on Stony 119J's sire, Lacy Collusion 115F. She is part of his first progeny that was born this spring and now that they are weaned, the Collusion daughters and sons have risen to the top at C-Bar Ranch, and all we can say is watch out this spring because there will be a son or two that will catch the headlines around the breed.

Lacy Collusion 115F • Sire of Lot 28

### Lot 29

Selling a package of 4 #1 grade frozen embryos stored at Hawkeye East. Guarantee of 2 90 day pregnancies.

If a Red Angus cow anywhere in the world deserves a medal it just might be old Reba 49W!! What a Peach she is! She has been propagated thru embryo transplant techniques 28 times now at 5 different ET collection centers in 2 different countries. I always remember Clint Woodrow's comment on this cow when she resided at EBY Ranch in Kansas" I don't have any ties to the Red Business ....." he said"..... But any shape, color or form of a cow you want to have ...... That cow 49W could darn sure be the one!" She started out as a heifer calf in RRUP sale and has developed into one of the

most dominant cows in history. So much so in fact that at this time we would like to announce the upcoming theme sale dedicated entirely to her called the RED REBA "Fancy" Gathering sale in 2023!!! All direct progeny from her along with cattle tracing to her will qualify for this truly unique event. It will be one for the book I'm going to write one day!!

4 frozen embryos stored at Hawkeye east in Iowa. Guarantee of two 90 day pregnancies. All resulting calves qualify for the upcoming newly announced RED REBA "Fancy" Gathering sale.

The sire to these embryos - Copenhagen 3Y just may have officially blown my mind with just how "stupid good" his set of Daughters were. At the unbelievable U-2 dispersal a few years back were!! About 30 of them in all age categories avg'd near \$14,000 that day. It was maybe the best Get-ofsire class l've ever seen! Its no wonder his semen (if you can get your mitts on it) commands big time dollars.

> Reba 49D is one up town daughter of OTM's signature donor cow 49W! Her first two sons to sell have topped Brylor's bull sale now in 2019 and 2021. For \$27,000 (Franchise 149F to Wraz) and now \$19,000 (Red Resource 66H to Camo). 49D is very rapidly becoming the owner's favorite in Pincher Creek, Alberta. This mating could be the most thrilling lot we have ever consigned to one of Gilchrist's sales to date!! Now that's a staement!!!

4 # 1 frozen embryos stored at Hawkeye East in Iowa. Guarantee of 2 90 day pregnacies if implanted by a certified technician.

Last years 2nd high selling lot of embryos right here in this very sale in OKC was this very mating of two awesome GIANTS in the Red Angus industry – 24Y and Resource! We'll get to the dam in a moment folks.....but for now lets talk about the huge energy surrounding the bull Resource 137E and the momentum he has created for himself!! He's had daughters sell in the last couple months that has everyone buzzing right now....\$117,000 calf at Harmony Hill, \$75,000 calf at Piepers, \$30,000 calf at Bet On Red for Feddes. Not to mention the heifer calves selling at the historic U-2 dispersal (about 30 of them avg'd 10 grand or so!!)24Y is one of the most gorgeous daughters of the still very relevant Mulberry bull alive! She has produced accordingly too. A herd bull for Rhodes and a \$10,000 daughter to Fulton. Brylor has a full sister to this mating at home right now and she's slated to Highlight the carousels of bred heifers at the 50th anniversary of RRUP next fall! Look in Webster's dictionary and you'll see a picture of Mulberry under the word timeless!

Selling 4 #1 grade embryos with a 5th one thrown in for n/c for both the guarantee of 2 90 day pregnacies. And ......get this.....also a guarantee of a red one!! Stored at Hawkeye west. Mating: JFRA 601D x Fraser Poker Face 613D (Purple Angus son of Vision Unanimous) otherwise known as a Black red carrier!

If you believe the old master cattleman's saying of "Buy 'em for the way they produce" then you should study your lesson here folks! 601D is a top of the line, top shelf and a top notch production machine north of the border for Mr. Fraser in Melita, Manitoba. She has been rated as the M O D cow (most outstanding Daughter ) of the \$57,500 valued bull called Red Brylor Red Kodiak 3A. Her first two natural born progeny were full sibs to this mating and they avg'd \$16,000 when they sold. First one was a bred heifer at the Touch of Class event in Saskatoon, Saskatchewan at \$14,000. And then a son named Regal sold for \$18,000 in Frasers own bull sale. You should see her 2021 born bull call - He is maybe her best one yet!

Poker face broke the color barrier at the RRUP sale in 2017 being the first black hided animal to enter the sacred halls of that sale. He was lot 1 that year as he was a red gene son of the Vision Unanimous bull. He sold for \$27,500 to a large group of breeders that day. His sons at the Brylor ranch bull sale in 2020 averaged just over \$11,000 on 9 of them. Bet you've never seen a guarantee like this before eh?

#### Lot 41

From the first time we spotted 17Y we knew she was a female we needed to add to our program. Luckily Morasch's were willing to sell us half interest, (for a \$30,000 valuation), our relationship and friendship with Lazy MC has worked well as we have also owned in partnership together the great Lazy MC Star 185M, dam of Cowboy Cut. 17Y is a past Canadian Res National Champ female as a bred. Her first calf, Lazy MC Ropeburn, topped a past Signature Series bull sale for the Morasch's. A daughter was a featured high seller in a past BCR Venture sale. 17Y is extremely big topped, thick, superbly attractive and ultra feminine. She is picture perfect and claimed to be the poster child for her sire Cowboy Cut. We are currently using a son sired by Lazy MC Hollywood; VETO Home Run-for cleanup. The Semex stud, sire of these embryos, EGL Fury is a "Beartooth" sired maternal brother to AHL Flashback that's leaving guite an impression in the herds he's been used. We plan to implant full sib embryos to this mating along with others by several other sires and 17Y this spring. This is a no miss mating top and bottom and the very first 17Y genetics we've offered. Guarantee 1 pregnancy if implanted by a certified AETA tech.

Her paternal influence of<br/>Red Fine Line Mulberry not only offers growth and style but also maternal traits at the top of the charts for<br/>real world cattle production. Game Changer is the super dark, super high velocity ABS bull from the famed<br/>Green Mountain Red Angus program of Three Forks, Montana. The calves produced from these embryos<br/>will be destined for great things!

Brown Ms Conquest A7067 is the signature cow in the Walnut Creek Crossing Farms Donor Pen and is none other than a direct daughter of the 3 million dollar Abigrace X Conquest! No matter what your program is, these unique matings to the "Queen Family" of the Red Angus breed will produce foundation females. A7067's incredible record includes a 107 MPPA with a 101 AWR; a 108 AWR; a 107 AYR and 103 REA! If you are trying to produce future foundation brood cows or Champion Show Prospects, pay attention to the matings offered on this amazing Abigrace daughter!

Selling the only 30 straws of Assassin to be released in the USA for this springs breeding season. Selling in ten dose increments. Assassin is the former \$77,500 high seller at the Cockburn bull sale 4 years back. He has done an outstanding job of siring highly efficient sons and daughters and cattle with huge show ring appeal. We are becoming limited on his supply of semen these days so take advantage now. He has left a legacy behind him that will be far reaching into the future of any herd he has touched!

Selling the only 50 straws of Resolution 4H to be released in the spring of 2022 in the USA! Sells in ten dose increments. Owners are: Rack, Brandl, J N L, Meadow Creek, Brylor and OTM.

An exclusive package of Red Angus power and near perfection as one can get!! Resolution will be held almost under wraps for now as we have launched a marketing strategy on this young gun to benefit both the buyins on him in the spring of 2021 and limited semen purchasers this fall. In the fall sales we have released a mere 100 straws in each country — Canada and the USA. He was one of the most talked about yearling bulls in all of Canada during last springs mad rush to find the "NEXT ONE!" When all the dust settled and smoke had cleared out of the BCC sale barn on a cold March day, the Syndicate put together secured him at \$30,000. He is an outcross calving ease sensation that is as heavily as muscled a bull as I've seen in a good long while. He is so dark colored and possesses such an immaculate foot it's hard to fathom! His disposition is wonderful and he has a dam behind him that is incredibly good too! She was a feature bred heifer at the mighty 47th RRUP sale last fall at \$15,000. He's young ....He's fresh....And he's extra cool!!

Dam of Resolution

Maternal Sister to Resolution

#### **Terms and Conditions**

**TERMS:** Terms of the sale are cash, check, or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale Manager reserves the right to require a certified check as settlement before releasing any cattle.

**PURCHASER'S RISK:** All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

**BIDDING:** Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

**CERTIFICATE OF REGISTRY:** A certificate of registry for each animal will be transferred to the buyer at the seller's expense.

**ANNOUNCEMENTS:** Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take precedence over the information contained herein.

**HEALTH:** All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for international shipment should be made with the sale manager prior to the auction. All efforts for the exportation of cattle can be arranged through the sale manager.

**BREEDING GUARANTEE:** All animals are guaranteed by the seller as outlined in the Red Angus Association of America Code of Ethical Sale Practices.

**LIABILITIES:** All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility, or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the Sale Manager from pedigrees and information supplied by sources deemed reliable, however, the Sale Manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.

**CONTRACT:** The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

**PHONE BIDS:** Telephone bids will be taken by the sale manager. Kyle Gilchrist's cell number is (641) 919-1077.

#### RED ANGUS GUIDE TO EPDS RedAngus.org

**ProS**..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

**HB**...... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

**GM......** GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

**CED**......Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

**BW**......Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW ...... Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value) YW ....... Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

**ADG**...... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

**DMI**...... Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

**MILK** ..... Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

**ME** ....... Maintenance Energy predicts the difference in maintence energy requirements. (Mcal per Month/Low Value)

**HPG**...... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

**CEM** ..... Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

**STAY**..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

**MARB**.... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

**CW**...... Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

**REA**...... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib.(Square Inches/High Value)

**FAT**...... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)
