Welcome

We want to thank you for your time and welcome you to a genetic offering that is simply an open door to the unbelievable donor line up amassed by GMC Genetics. Timing is everything and as you look at what this donor pool has done in the last six months the purchasing opportunity at this point is prime. Casey Hill barred no stalls for us to pluck from as you can see in the following pages. This is a chance to get ground floor genetics by the leading ladies of the breed. We want to invite you for hospitality with food and drink before the sale and enjoy time together in Oklahoma City.

Baldridge Isabel F047 is the $195,000 half interest addition to GMC Genetics through the 2022 Baldridge Performance Angus Female sale. In the 2022 Dixie Valley Female sale, a Whitewater daughter sold for $80,000 to Double Barrel Angus. F047 is the maternal sister to Sterling Pacific 904 and the dam of Baldridge Jordan, the $75,000 purchase of Double Barrel and Linz Heritage. In the 2022 Genetic Allies sale GMC Genetics sold a flush to Dixie Valley for $80,000. That flush yielded a huge number of embryos as she is a typical Isabel and responds very well to FSH.

The standard that Baldridge Isabel Y69 has set is impressive in the Angus breed. With well over 2 million in direct progeny sales this million dollar valued donor dam still is a great embryo producer to this day. Perhaps the most valued part of the Isabel cow family is there uncanny ability to produce big results for long periods of time at the ET centers. What a chance to get in on part of the only four Clarity x Y69 heifers in existence.
