GENERAL SALE INFORMATION

American Shorthorn Association Genetic Condition Disclaimer: Unless an animal is listed on the American Shorthorn Association "genetic condition status list", the American Shorthorn Association makes no representation of any kind as to whether or not the animal has a genetic condition.

Terms And Conditions: Terms of the sale are cash payable to the clerk following the sale and before the cattle are removed from the premises.
Billed Accounts: All billed accounts are due within 10 days following the date of the sale.

Health: Each animal selling will be accompanied with a state approved health certificate from its state of origin. Buyers should make themselves aware of the health requirements for their respective states.

Breeding Guarantee: The Suggested Breeding Guarantee as endorsed by the American Shorthorn Association will be followed.

Registration And Transfer: All animals sell with completed pedigrees or applications for registration in the hands of the sale manager.

Announcements made from the auction block take precedence over all printed material in this catalog.

Insurance will be available for your purchases at the sale. Contact the clerk at the time of settlement for your insurance needs.

Liability: Each animal selling will be at the buyer's risk as soon as sold. Neither the owners, employees, auctioneer, sale consultants, sale manager, Cattlemen's Congress, American Shorthorn Association or other affiliated personnel can be held responsible for any accidents, but will make every effort to provide for the safety and comfort of those attending.

Mailed Bids: We hope you will be able to attend. If you cannot attend, you may mail or telephone bids to the sale manager or representatives.

Montie Soules - 918-645-4322

Dear Shorthorn Friends,

Welcome to the 2023 Summit National Shorthorn Sale. What an offering we have for you this year! Powerful Herd Bull Prospects, outstanding Bred Females, flashy Show Heifer Prospects, fabulous Flushes, Embryos, Pregnancies and Semen from top Shorthorn Breeders throughout North America. I am extremely excited and proud of this offering and a big thank you goes out to all those who support this Great Sale.

As many of you know, the Shorthorn Youth Development Fund (SYDF) was formed and it is the main vehicle to support the fund raising efforts to support the National Junior Shorthorn Show. This event has been voted Best Junior National to attend two years running by Best of the Barns. As we did last year we will open the sale with a few feature lots that will continue the effort to enhance the SYDF and its tremendous cause. We have a committed Board of Directors for SYDF that work very hard to enhance the efforts for SYDF and I would be remiss if I didn't recognize these people. The current SYDF Board Members are Julie McMahon-French, Jerry Nickel, Nancy Grathwohl Heter, Joe Bales, Montie Soules, Kevin Wendt, and myself. All of the funds raised by this Foundation will support the function of the National Junior Shorthorn Show and all of the wonderful Junior members involved in our Great Breed.

Going forward if anyone of us can be of assistance or answer questions please contact any of us and we will be glad to help. The Youth is the Future and we need to build on the tremendous momentum we already have.

Thanks for your support,
Jeff K. Aegerter

The Shorthorn Youth Development Fund was established in 2020 to provide financial support to develop Shorthorn Youth as cattle producers and responsible, productive citizens. The fund is dedicated to enriching the lives of youth interested in agriculture, through support of the educational & leadership activities of the American Junior Shorthorn Association.

The SYDF is a non-profit organization and resource that allows you to directly invest in the future of the breed that is your business, your lifestyle and your passion. This platform streamlines the donation process to make contributing to youth more accessible to everyone, especially those whose business directly benefits from junior and family customers.

There are many ways to donate. You can donate a lot in your sale to become part of the Royal Society Club or make an annual pledge to the Shorthorn Red, White and Roan Club. Membership level for each club is based on the actual monetary value of your donation. Club members receive recognition in many forms.

The fund accepts checks, cash and credit cards. You can even set up your contribution to be billed directly to your DigitalBeef Registry Account. No contribution is too small, and every dollar counts!

By making the commitment to pay it forward through your pledge to the SYDF, today's breeders accept responsibility of seeing to it that our youth have the opportunities they need to be the breeders of tomorrow!
Contact shelby@shorthorn.org if you have any questions or would like to donate.

100% of proceeds of Lots A-D go to the Shorthorn Youth Development Fund Foundation to support the National Junior Shorthorn Show.

Shorthorn YOUTH DEVELOPMENT fund

"BENEATH THE SYCAMORES" PAINTING

Donated by Turner Shorthorns, Tom & Susie Turner and Artist Rick Akers

To commemorate the 150th anniversary of the American Shorthorn Association, Turner Shorthorns commissioned widely known Columbus, Ohio impressionist artist Rick Akers, who donated this original "Beneath the Sycamores" painting, capturing the vibrant colors of the autumn season and the beauty of Shorthorns grazing the countryside. The vivid colors of the painting mesmerize the eye, and like a prism, change as you study the scene.

Rick Akers is well known for his art painted "en plein air" which is French for "painting under the open sky". Akers offerings have been created around the vistas and varied scenes in nature across the United States. The non-traditional application of paint, using only a palette knife is Akers preferred technique. Akers has won numerous awards and consistently donates paintings to raise money for worthy organizations.

Tom & Susie Turner have partnered in this donation in memory of Christopher Marler of Wavendon Shorthorns, a dear friend and fellow Shorthorn breeder from Weston Underwood, Buckinghamshire, England. Chris visited the United States many times and was always on the hunt for the next great Shorthorn! Appraised at \$3,500. All proceeds will benefit the Shorthorn Youth Development Fund.

FRAMED ARTIST PROOF 12

Donated by the American Shorthorn Association

Selling a framed artist proof, 12/15, of the 150 Year Celebration Commissioned Painting done by C. J. Brown named "American's First - Shorthorns Across America". This proof has the 150th Anniversary Logo on it and a sketch of a bull.

RECIP SOLUTIONS - PACKAGE 1

Recip Solutions, Craig Gana: 402-430-2526

- (3) transferred embryos at zero cost with 1 pregnancy guarantee
- Buyer gets pregnancies + recip at zero cost
- Buyer will be notified at 60 day preg check
- No 100 day pregnancy guarantee
- Buyer must pick up between 60-75 days
- Feed Bill at cost of buyer on all 75+ days

PREMIER VIP PARKING AT THE 2023 NJSS IN IOWA

Donated by the Iowa Junior Shorthorn Association

Here's your chance to have the best parking spot at the 2023 National Junior Shorthorn Show in Des Moines, Iowa. The winning bidder will have a reserved VIP parking space for the entire week of the show. The parking spot will be based on where your state is stalled at in the barn, to ensure your parking spot is as close to your stalls as possible! Proceeds go towards the 2023 NJSS.

RECIP SOLUTIONS - PACKAGE 2

Recip Solutions, Craig Gana: 402-430-2526

- (3) transferred embryos at zero cost with 1 pregnancy guarantee
- Buyer gets pregnancies + recip at zero cost
- Buyer will be notified at 60 day preg check
- No 100 day pregnancy guarantee
- Buyer must pick up between 60-75 days
- Feed Bill at cost of buyer on all 75+ days

Value per package:

Transfer \$75/transfer X 3 = \$225

One pregnancy = \$2,900

Total = \$3,125

Sire - JSF Kane Cinch 61H

What an absolutely exciting time to be a Shorthorn breeder it is right now. Our junior program and show cattle market is at an all time peak. Our bull market and commercial acceptance is at the highest level that I have seen it in my lifetime. I believe we as Shorthorn breeders, as well as our breed leadership, have done an excellent job of unifying our breeders to produce a more versatile product. I believe CF Crossover can get us just that much closer. He is bred to be a true calving ease sire that doesn't sacrifice growth numbers. He is uniquely bred for a lot of the breed with very strong maternal bred in. He looks like a show bull. He is perfect structured great looking with tremendous body and incredible muscle from behind. I think this bull can continue to help unite the cattle and breeders of our breed and further the greatness of our product we offer to all facets.

CONSIGNED BY: CATES FARMS

Sale Terms and video to be posted on Cates Farms Facebook Page prior to the Summit Sale. Inquiries on Crossover can be directed to Tyler Cates 765-576-0035 or Jeff Aegerter 402-641-4696.

HEIFER PREGNANCY

Due 6/10/23

This will be a full sib to MFS Dream Weaver, lot 2.
 We have liked what we have seen out of this mating and are excited to offer this pregnancy.
Recip is located at MFS and is a black hided Trans Ova recip. Buyer will be responsible for shipping.

Selling full possession & 2/3 semen interest.

Dream Weaver was a much-anticipated arrival this Spring at MFS! We were excited to take him to his first show at NAILE. He did not disappoint being named Spring Bull Calf Champion and garnering a lot of interest and discussion. His sire SULL Dream Maker has left his stamp in the show ring this past year. The supply of Dream Maker is scarce - here is your opportunity to invest in a son with many of the same distinctive attributes. Please contact Craig, Alan or Jeff for information on possession and/or packages.

A pedigree where both dam and sire need no introduction to the Shorthorn breed. One of the most striking and unique 2024 sons to date who's ranked in the most upper echelon of the breed for REA, this bull's muscle is for real and you'll see that with his incredible top shape and bulgy muscle through his lower quarter, twist and stifle. This young sire is a unique combination of moderation with power, look and softness. There is a lot to appreciate the way 50K excels on paper in performance EPD's but yet is balanced across all traits to be above breed average in 14/16 EPD's & \$Indices. A very docile, easy going bull that is going to be awfully hard for a 3 year old to see go; just ask him. "Greens Fork" is named for the location of where he was bred, credit to the whole Bowman crew for breeding this great bull. Homozygous Polled & Myostatin Free.

For our first offering in a national sale we waited till we had something we thought was pretty special. Goldstar brings a lot to the table. From being long spined, good muscled and a ton of rib shape he still gets out and moves with complete ease. Yet still keeping that functionality to produce great heifers and great breed steers. You can't go wrong whatever way you want to use him. His dam was a very successful show heifer for us here in Texas from countless division champions and being Champion Shorthorn heifer in the Houston open show as a calf. Stop by our stalls and check this guy out in person before the sale, you won't regret it.

Ultra-powerful and complete show heifer with worlds of potential and a pedigree that just keeps getting better. You have to admire the extra substance and power in this heifer. She also possesses a beautiful feminine look with an extra shot of foot and bone. Her mother is a future donor for us and was Reserve Division Fall in the Bred and Owned show in Abilene at junior nationals in 2020 and was Reserve Division in Kansas City in 2020 as well. The Boulevard x Red Value is really clicking for us as this heifer is a half sib to Berg's Peach Pride the June heifer that was Grand Champion at Minnesota State Fair and Bred and Owned Champion heifer at the Iowa Shorthorn Field Day. This heifer will be the spitting image of Berg's Peach Pride.

We couldn't be more impressed with how this heifer calf has progressed. She's got all the features you could ask for; smooth made, soft middled, powerful and combines all that in a feminine look. Study this heifer's genetic package combined with her style and balance; you can't go wrong. She will provide a junior showman with a very exciting show season. Be sure to admire her color package as well. Her future is all in front of her!

Waukaru is excited that Primabella 1030 is the first daughter of Spry's Gigabyte N122 to be offered to the public. Spry's Gigabyte N122 has already made a major impact in the Waukaru program; three of the five top selling bulls in 2022 were all sons of Gigabytes N122. Primabella 1030 is a unique female in the breed; she ranks above the top 10% of the non-parent population for CED, YW, CEM, MARB, and \$FEED while being above the top 20% for BW, WW, CW, REA and \$BMI. It is difficult to breed cattle that can rank as high simultaneously for calving ease and birth weight versus growth; muscle versus marbling; and maternal traits versus feedlot performance. Primabella 1030 does all those things while being angular and correct in skeletal design with a large, deep foot, moderate-sized with great depth and spring to rib cage and nearly ideal in symmetry and balance. Primabella 1030 is built to be a breed leading matron and enter a donor pen. Homozygous Polled.

Lassie 1075 ET is a daughter of KL Prime Time Teddy, a sire that has generated as many active females in the Waukaru herd as any in history. Sons of Teddy are currently working in both commercial and purebred herds from California to Florida and Texas up into Canada. Lassie 1075 ET is a direct daughter of the famous Lassie 2024 donor for Bowman Superior Genetics that has generated countless dollars in progeny sales around the globe. Lassie 1075 ET is as powerfully muscled and big topped as any Teddy daughter to date. She exhibits great shape and expression of muscle over her rib, down her top and down to the lower portions of her quarter. Lassie 1075 is equally as impressive on paper, being in or above the top 5% of the non-parent population for CED, WW, YW, CW, and \$FEED while landing in the top 10% for \$BMI. Homozygous Polled.

Red Nan 1068 is also a daughter of the legendary KL Prime Time Teddy, whose semen is now unavailable. The Red Nan cow family has been producing profitable cattle at Waukaru for over a half century. This line of cattle are relentless in their ability to respond to selection pressure and always stay current. Red Nan 1068 is a broody, big barreled, high-volume female that goes back to the breed marbling specialist, Byland Top Gun, on the bottom side. Red Nan 1068 posts a \$BMI of 139 that lands in the top 5% of non-parents. This future donor is from one of the most recognizable cow lines that has stood the test of time; she is designed to anchor any program today.

OPEN SHORTHORN HEIFERS

This pen of beautiful roan heifers are all sired by Byland Snap and are the most consistent "Pick of the Pen" offering we have consigned to The Summit Sale to date. All moderate made, easy keeping females that have great eye appeal as well. Pick any one of the three and you won't be wrong.

OPEN SHORTHORN PLUS HEIFERS

All three of these plus heifers go back to registered Simmental females. Purebred Shorthorn bulls on Simmental cows has worked well at our place. Genomically speaking the matings result in very high indexing offspring. This group adds in that highbred vigor to produce awesome momma cows. Easy keeping, easy fleshing and still dang easy to look at. Take your pick.

We are really excited to participate in the Pen Show for a second year and are equally excited about these heifers. This powerhouse is a real show stopper! She has lots of volume, beautiful fronted, and is smooth moving. Her sire hung numerous banners and the JPJ on the dam's side adds power and depth. We can't say enough good things about this heifer. Look her up at Congress, you'll be duly impressed.

We love this heifer. She's exceptionally docile and very flexible at the ground. She is also very feminine but has plentiful volume and the "look" to be competitive. We bought into the Lavender cow family with Jerry Arthur and just froze 8 embryos out of the nearly 17 year old matriarch and donor dam of this heifer. There's a reason there are 9 Lavender cows in our herd.

This heifer will no doubt find a great show home, then make it into the donor pen. She goes back to the original Demi cow from WHR and her sire is our best kept secret. He's versatile enough to make outstanding show heifers, like this one, and produce really good show steers too. His dam was Reserve Champion at the Tulsa State Fair. This heifer is wide hipped, super hairy, big boned, and dam good.

This mating is exciting for what it offers a variety of breeders or showman. This heifer's flush mate was shown successfully at the American Royal being reserve in her division. She also carries all the benefit of her sire, Thermal Energy, making her a legitimate genetic piece for performance and simultaneously having elite structure and eye appeal in a rare truly moderate deep ribbed easy fleshing package that is so contemporary for what the breed has to offer today.

Pick of the Pen

CONSIGNED BY: PEAK VIEW RANCH, RICK LEONE: 719-263-4321

SULL Maxed Knight won the 2019 Junior Nationals and made a big impression on all that saw her. She is making a bigger impact as a donor. Red Blood has proven his ability to generate winners especially bred to Red Knight daughters of this caliber. Reverence in his first calf crop is exceeding any expectations those that purchased breeding shares had. Both these matings have limitless possibilities.

Seller guarantees 1 pregnancy if put in by a certified technician.

FLUSH - PICK OF THE HERD

Selling right to flush any female two years and older, guarantee of 6 transferable embryos.
 Flush to be completed by Reyher Embryonics Belgrade, MT. Conventional or IVF.
 Can provide semen on JSF Manhattan or any of our bulls in storage here.

Promiseland Cattle located in Fishtail, Montana, is opening the gates to what many visitors have called "A unique and stellar set of females!" They have been bred with the core basics in mind: sound structure, good feet, fertility, superb udders, fleshing ability, muscle and balanced positive production in a harsh commercial environment. Dawning outcross pedigrees and phenotype that will compliment most genetics today.

ASA Disclosure of Genetic Conditions and Performance Data

1. The seller is responsible for disclosure of all known Genetic Conditions at the time of sale. The seller should display in the catalog all Genetic Conditions known to the breed at the time of cataloging. For each animal Genetic Conditions should be displayed in the same format as on the original registration paper or disclosed in a separate box or prominent place for buyers to be notified of the results (both free or carrier status) from testing for Genetic Conditions.

2. The buyer assumes all risk associated with the purchase of known and unknown Genetic Conditions of carrier animals. (Provided the seller has disclosed all Shorthorn Genetic Conditions known to the seller and /or to the Shorthorn breed at the time of sale)

1. The Seller is not responsible for any new Genetic Conditions that may be determined or discovered by the ASA after the time of sale for any animal or genetic material.

2. The seller should print in the catalog all EPDs and accuracies for each EPD trait and all breed indexes on each animal selling. This information should be presented in a standardized manner as seen in sire summaries or breed EPD information released by ASA. This performance information should be the latest and most accurate data at the time the catalog is printed, providing the animal qualifies to have EPDs attached to their registered pedigree. Any other pertinent performance data such as BW, WW, YW or Carcass Data that is available should be added to the performance listing in the catalog at the seller's discretion.

3. Special logos with letter terminologies will be given to breeder's sales and / or individual lots in a sale that make it a priority to test and disclose all Genetic Conditions.

a. GCF (Genetic Condition Free) - A sale offering or an individual lot that has tested or found animals to be pedigree free of any Genetic Conditions for all animals and/or genetic material represented in the sale.

b. GCT (Genetic Condition Tested) - A sale offering or individual lot that has tested all animals that may be potential Genetic Condition carriers and the results of those tests are displayed in the appropriate manner for all animals that may be at risk as a Genetic Condition carrier. This means that all possible Genetic Condition Carriers are identified according to the descriptions in paragraph 1 under Disclosure of Genetic Conditions and Performance Data. There may be carrier animals or genetic material selling but they have been tested and are disclosed and all potential animals and / or genetic material at risk to be a carrier have been tested and the results disclosed.

c. CAP (Complies with All Performance Listing) - A sale offering or an individual lot that Complies with All Performance listings of all Shorthorn EPD traits with accuracies and indexes in the appropriate standardized manner as described in paragraph 4 above under Disclosure of Genetic Conditions and Performance Data.

4. Any donor dam and AI sire that does not have all the required tests that makes them Donor Dam Qualified and/or AI Sire Qualified; the resulting progeny will need to be tested for those tests missing in order to be eligible for registration at the American Shorthorn Association.

We bought Celine 3130 as a heifer for Jay to show, which he did successfully. She became a great producer, most notably of Armstrong Easy Rider 1630, the \$30,000 top-seller at the Revival and the winningest show bull in 2018. Everyone has their own opinion of what makes a great cow worth of donor status. Besides her production record, Celine is pictured here at 9 years old, so you can see why she's the top of our donor roll. **Embryos are stored at BoviTeg, Madison, Wisconsin.**

This is the freshest and cutting-edge genetics to sell this winter. Embryos offered out of our Crystal Lilly donor that is a SULL Crystals Lucy daughter that has produced more bred and owned champions than any other cow here at Berg Shorthorns. This outcross cross to Park Place will produced impeccable show heifers with awesome hip, length, and bone that a lot of cattle don't possess today. These would be half sibs to Mylie that just won reserve late spring heifer calf in Louisville and was Champion in that division in Iowa and Minnesota State Fairs as well. Mylie is out of a Red Knight daughter as well. The Red Knight x Park Place cross is really clicking, and we are offering our very best in OKC this year.

Offering 4 embryos to the bull of your choice! When this cow walked into the picture pen Madison Feller asked who this cow was, I told her it was 6K's dam. She responded with "I can see how she made 6K." Weeks later, Matt Woolfolk made a very similar statement. Her bull calf this year, Gilman's All In 6K, will lead our pen of bulls in OKC and has already grabbed the attention of many cattlemen across the globe. We plan to flush her this spring and will offer 4 embryos to the bull of your choice, including any bull in our arsenal. Flush to take place prior to 5/1/2023.

You can't make one much more complete than Minnie 5214. She is wide based, soggy made and we have been impressed with her fleshing ability since she has made the move to the west coast. Minnie 5214 came from the heart of the Waukaru donor pen and was the high selling lot in their 2020 female sale. She is backed by a great set of EPD's and a great cow family. The progeny from these matings will be exciting.

SULL BLOODED RUBY 3278 is becoming one of the most proven and profitable donors in the Shorthorn breed. Her 10 purebred Shorthorn heifer calves this year alone grossed ¼ million dollars. This past summer her Red Knight daughter was 4th overall at the National Jr Heifer Show for the Dryer family. We haven't had many Plus's from the Blooded Ruby donor but she produced the Grand Champion Shorthorn Plus 2 years in a row at the Iowa St Fair 4-H Show and the Iowa Beef Expo.

Cutting edge genetics here out of Bergs Sweet Kaite, our donor that was the 2018 Reserve Bred and Owned National Champion in Madison, Wisconsin. The Park Place calves are absolutely smoking it for us with a May heifer we raised name Mylie. She sold in Sullivan's fall sale for half interest that was Reserve Division in Louisville this past November. She also won the Late Spring Calf Division in Iowa and Minnesota State Fairs as well. We have a couple of these coming and are going to be the future here at Berg's Shorthorns. Bid on these for an opportunity to put your prefix on a big time show heifer and propel your herd for the future.
