Bid Online **LiveAuctions.TV**

Welcome

back to the third Bricktown National Simmental Sale at Cattlemen's Congress. We are extremely excited about this set of cattle that we have put together and we are sure there is something for everyone. We have donors, flushes, embryos, along with a stout set of bulls, breds, and open heifers that will be great additions to the most discriminating buyer. Last year we had a bull that sold in our Bricktown sale and became National Champion Bull at American Royal and another that went to Genex. You will want to study your lesson on this elite set of cattle.

I would like to thank the Oklahoma Simmental Association for, once again, allowing us to put on this great event.

Plan on joining us at Cattlemen's Congress on January 8th, 2023 or online at LiveAuctions.TV.

Thank you

Greg & Shelly Burden

people's attention. She reads impeccable in her build, obnoxious through her center body, she has a bone column more likely seen on a club calf, genuine mass and power all the way through her skeleton, motoring abilities out of this world and yet she still looks like a lady is supposed to up through her neck and head.

I Superb pedigree backing too with the ever popular and hard to get Hammer as well as the tried-and-true matron, Hart Hollywood Queen. Proof is in the pudding...E835 has made some fans through the years- we sold half interest of her as an open for \$25k, a flush on for \$9500, \$10k, and one for \$12k, her first heifer calf brought \$12k that was on her side when they were named Champion Cow/Calf pair at the 2020 NAILE. We are chomping at the bit to see what the embryo calves will look like coming this spring out of her as well. Jolene comes to you from the very top of the Donor battery here at Riley Farms with our partner Maple Lane; she's got a lot of production years left. We debated if we should leave her open or breed her...to keep her fresh and productive we decided to breed her to our newest herd sire purchase, WHF High Roller H365. High Roller is a Double Down out of an Innovator x Broker x Summer. Our excitement level to see his calves hit the ground this spring and next fall is through the roof. He is awesome- we bred every donor cow on the place to him if that gives you an idea of what we think of him.

I If your long-term plan is being a serious contender in the cattle business, I'd strongly suggest this female be at the top of your short list come sale day. She is one of a kind that generates cash.

I SELLS IN HER ENTIRETY! VET CHECKED SAFE ON 12/2 TO WHF HIGH ROLLER H365 (3780732) approx. 70 days bred.

Offered by... Riley Farms | Carly Riley 219.207.0024

I WHAM BAM, YES MA'AM! Take a look at this creature...kicking myself as I sit here and write this footnote because why on Earth are we selling this cow? Well, it is because we strive to always offer our very best. What a fun ride it's been with this cow - we have a nice bank of embryos on hand, so she is officially up for grabs.

I Jolene has always demanded

Riley Queen

WHF High Roller H365

HPF Right to Love 283C has been a mainstay in the donor pen since she was acquired at the historic HPF dispersal. Here is a female that no matter which way we have flushed her it always works. She stems from a long line of matriarch females in the Simmental breed, and she herself has written quite the chapter for our program.

A daughter sired by W/C Executive order 8543B was the impressive baldy female campaigned by Sara Sullivan she was selected as the 2020 AJSA National Classic Reserve Grand Champion Purebred in Brookings, South Dakota. S/P True Love F789 has evolved into an absolute beauty of a cow for Bloomberg Cattle. You could travel many miles to find a cow with this much length and neck extension.

HPF Right to Love 283C sells open and ready to flush and has averaged 23 frozen embryos on the last 3 IVF flushes with Boviteq.

What a flush opportunity on the 2022 Lot 1 female at Oklahoma City! Grace is one of the best Purebred Simmental females we have ever had the chance to work on around here. Grace or as we call her Bucket took the show-ring by storm right off the bat. She's was Overall Champion Heifer at the Arizona National as a heifer calf, Champion Simmental at the San Antonio Stock Show and Rodeo, Supreme Champion Female at the TAMU Saddle and Sirlon, Crowd favorite at Cattleman's Congress last year, and rounded off her show career being selected as Champion Simmental at the Houston Livestock Show and Rodeo. I'll be the first to tell you that I feel like her best days are in front of her. I've never seen a purebred female be larger framed, huge middled, with an awesome set of feet and legs. Pay the Price is starting to leave his mark in the Simmental breed and 904G is only one of the many reasons why! Grace is one of those females I feel a person can build a herd around by mating her many different ways. We have personally flushed her to make % Simbrah's to help take our Simbrah program to the next level. She was raised by the Ratliff family in Kansas and everyone knows what kind of females that program has produced over the years.

We are offering the right to one flush with a guarantee of 6 eggs and 2 pregnancies if work is done at an agreed upon location. She's open and ready to flush.

It's no secret that the importance of proven cow families in breed leading seedstock and that's why we are offering you an opportunity to add the paternal cow families of your choice to the already present J&J Queen 414 and Ebony's Joy 123 found in CMFM Joy 02ZB. There is no doubt that Copacetic has sired and will continue to sire champions in and out of the ring. His oldest son, WLE Black Mamba, sold for \$75,000 for 3/4 interest in the Player's Club sale in Vegas and went on to win the American Royal and North American, which made his Show Bull of the Year. Enjoy!

WLE is offering a flush to the bull of your choice guaranteeing 6 embryos with an open top with buyer assuming all cost associated with the flush.

Offered by... Wesner Livestock | Barry Wesner 219.863.4744

WLE Copacetic E02 - son of 02ZB

Bar CK Ms D948 9101G - reference

I'm not sure how B180 is still arguably one of the best kept secrets when it comes to red genetics in the Simmental breed. She is a never miss, no matter what we flush her to, kind of cow and a total outcross to popular sire trends, giving unlimited mating options. Her offspring are stamped with big tops, plenty of rib, free moving, and have generous foot size. To date, her offspring have generated almost \$200,000 and consistently top our annual sales. Add Imperial to the mix in 9101G and you get an incredible EPD profile. The potential of this flush opportunity is endless. She is open and ready!

I Guaranteeing 6 transferable embryos with an open top.

Strike while the iron's hot! Reds are as hot as ever and this beautiful red baldie is the epitome of what we try to create in our program. A proven, predictable pedigree on top of a phenotype like this? Count me in! This TJSC Hammer Time 35D daughter is out of our Redemption E701 donor whose only 3 calves sold have averaged nearly \$17,000. We love Rojo's balance from the side and sharp, attractive look up front. She comes back so big and bold through the center portion of her body with the kind of genuine rib shape and power it takes to make impactful progeny. And her first progeny will offer quick payback as Rojo is due on 2/3/23 to WHF/JS/CCS Double Up G365 with a pregnancy ultrasound to be a heifer. It pains us to let this one go, but you can't keep all the good ones. Jump on board the red train with one good enough to ensure you are riding up front!

Offered by: Next Generation Farms
| Tony Drach 815.992.8462

Bar Sassy 2109

I This lot is truly from the heart of the BKC herd. We have never offered any females of this mating to the public. They have become our new building blocks and things are progressing well. This heifer's sisters have been class winners at Cattlemen's Congress and a top five bred and owned purebred two summers ago at the National Classic. WLE Copacetic needs no intro. He is the source for good built high volume, structurally impeccable cattle that just flat work. The dam of this heifer will write her own book here at BKC. Blessed as we call her has it all and then some. You won't find a more powerfully built donor that can move as correct and good as any you have witnessed. To say we are high on this heifer's genetics and potential would be a gross understatement. This is our first time to offer an animal in the national Simmental sales and we thought it would be fitting to offer one of our very best.

B&K/IVS Sams Empriss 312J

I B&K/IVS Sams Empriss 312J is a female that as you can see excels with both phenotype and pedigree, which as breeders we all search for that complete combination package. Empriss 312J comes out of a very successful flush with a full sister commanding \$23,000 as a top selling open in the 2021 Buckles and Banners Sale and has had her share of Purple this past summer. If you are in the market for your next donor, we are confident this female checks all the boxes. Being out of the great sire, SAM and HPF EMPRISS E010 which was the top selling donor a few weeks back at the Special Reserve sale during the NAILE. She is packed with predictability, pedigree, performance & profit. Make sure to look her up sale day or come by the farm, you don't want to miss this one!!!!

I Well folks, here is a full sib to the "unicorn" known as Hazel. He has been a stud since birth and it's been hard not to talk about him until now. Very seldom do we have bulls out of the best cows in the business any more, but here he is. He is back by one of the most consistent cow families in the business, 770P. Here is the recap - His dam sells in Circle M's dispersal sale for \$30,000 and goes on to be 4th overall at Junior Nationals as a fall heifer calf. Then she produces the unicorn...Hazel was National Champion Female and Show Heifer of the Year in 2021 with wins at Cattlemen's Congress Jr and Open show, Denver, and Fort Worth in the span of 26 days. She was also Reserve at the North American. Now we are offering Trumped Again to everyone, selling 1/2 interest and full possession.

MFED Sweet Emotion 313K

This sweet girl has had many admirers at the farm and with good reason. Just two shows under her belt, but they were big ones and she made some noise and hung a banner in the process. "Emmi" was division reserve at the prestigious Iowa State Fair Simmental show this summer. And in a competitive class at the American Royal she stood second to the division reserve. So she can run at the top, just give her the opportunities! You'll be captivated by that pop-off, cocky look when you get her stuck. Love how effortless she moves on great feet and legs. She truly enjoys being shown and she's kitten tame; so fun to work with. Hair for days. You won't have to push her at all, she's very easy doing. The Deplorabull's have that rib dimension for the look desired in the show world and the capacity and depth for production. And with all the look comes tremendous function and genotypic value as well - check her numbers. 12.5 CE and a respectable 124.5 API. This is her mama's third calf; all females that have come small, unassisted and they spring right up into action. She's the total package folks. Bid confidently on this outstanding future donor- she's going to do you right no matter which direction you take her.

Offered by... Moody Farms | Dan & Wendi

Shawnee Miss 1D
- reference dam

Deb, as she's known around here, has absolutely kicked it out of the park for us this year. Not only with the Profit heifer in the sale, but also with a set of Relentless sisters that are going to make strides in Indiana and Kentucky on the show circuit this spring. With that being said, we felt it was a great time to let someone else in on the fun of raising bald faced show heifers and herd sire prospects stamped with Deb's signature eye appeal and added stoutness. I wish timing allowed to get the two fall born babies at home out of her worked and pictured. Those two sired by Foresight and Profit are going to be spring sale highlights for certain.

Offering either a conventional or IVF flush cycle with a minimum of 6 grade 1 or 2 embryos with no cap. Flush work to be done at Donor Solutions, IN.

Offered by: J&AE Livestock | Austin Egloff 812.309.4152

HHSF Surena K054

Pay attention to the pedigree here. If your program is about the genetics and you want to build around a cow, Surena is it. In our pursuit of the cow to build around, we purchased her dam from Blairs in the Agribition, which was a partnership frozen embryos from Argentina. This is a clean slate to start with and the possibilities are endless. The broodiness and stature, bone, thickness, and big foot makes her an ideal model to build on.

12	1.1	75	102	17	10	17.9	-0.04	-0.076	0.87	108	72

Opportunity knocks to own proven genetics from a proven champion! Horstman Tenacious 118J is no stranger to winner's circle. He himself was named Division 1 Purebred Champion of the 2021 NAILE, Grand Simmental Bull at the 2021 Dixie National and Champion Simmental bull at the 2021 Indiana State fair. His dam LAH Lola 314A was a featured donor in the past Factory Direct Sale valued at \$22,000 and selling to Next Generation Farms. This donor is a full sister to Tanner Hovey's Grand Champion % Female of the Simmental Summer Classic and stems back to Limestone's full sister to BC Lookout 7024, deemed to be the most prolific full sister to that legendary, breed changing Angus bull. Horstman Tenacious 118J offers you a Homozygous Black and Homozygous Polled purebred option with double digit CE, while ranking in the top 35% of the breed and a 1.2 BW EPD. This puts him in the top 45 percentile for that important trait. Horstman Tenacious 118J himself, had an actual and measured 70 lb. birthweight. Maternal sibs include, Horstman LAH Lola 946G, past high seller of the 2019 Factory Direct Sale. This female commanded \$28,000 and was later named Grand Champion Overall Female at the 2021 Georgian National Livestock Show for Jesse Chronic. LAH Lola 733 was a \$37,500 feature of the 2017 Hartman Cattle Co Customer Appreciation sale. Maternal excellence in phenotype. Genetic profiles that allow flexibility and predictability, from a proven winner where the work and promotion is already done! Not to mention we will include 100 units of flush quality semen with your purchase!

I Selling 3/4 semen interest and full possession.

I Horstman Cattle would like to take this bull back home and collect some more semen on him. They will deliver the bull to the buyer no later than April 1st, 2023.

10	2.4	82	137	20	8	46.6	0.13	-0.078	1.06	115	80

The Remedy sire group is admired and appreciated by most for their consistency in skeletal integrity, doability, modern performance, and quality. SWC Joint Venture 959J would essentially lead off the very first crop of embryo calves from the past Cowtown Classic, \$30,000 sale feature known as SWC Wicked Fran 502F. Fran was selected by John and Alicia Sandidge of Bar

QH Simmental in Illinois and is from the proven NFF Wicked B125 that has highlighted both the Ruby Cattle Co and Shipwreck Cattle Co programs for years with an arsenal of breed champions and reserves exhibited in the Texas Majors. SWC Wicked Fran 502F is a past Fort Worth Stock Show and Rodeo Simmental Champion for Bodie Shipman with that selection made by the late legend Jim Bloomberg. With all due respect to the business and the breed, the great bulls are still backed by a supporting line of females. The maternal backing in this creature are all saturated with center body, true rib shape and depth with honest flank. DUFF New Edition traces back in the lineage with that Wicked foundation member crowned as Champion Percentage Female in the junior show at the North American International Livestock Exposition for Kayla (Nelson) Chase back in the day. Skeletal integrity blitzes the pedigree as well as natural base width and hoof quality. Remedy contributed added look with a high tying neck set out of a smooth blade followed by a desired transition into his forerib. 959J has always been deep and uniform in his underline with a long smooth muscle design, a near textbook rear leg and pastern set while setting on a big round hoof with honest heel depth. As a calf he was super good haired and so we expect him to pass that all too important trait along to his progeny as well. There is no doubt that Joint Venture will return for whatever program he is drafted by on sale day. His resume is solid and the genetics that encompass him are generationally deep and proven.

Selling full possession and 2/3 semen interest.

SWC Javelin 964J has been a standout since birth. This direct son of Remedy is from the first natural calf from the MR HOC Broker sired daughter of the legendary 3C Melody M668BZ donor that built the entire CK Cattle and Wager Cattle Co. programs of South Dakota known as WAGR Chanel 5073C. Chanel 5073C and the CCR Anchor sired dam of this stud known as BLC1 Estelle 373E have been the "poster pair" for the American Simmental Association website and that same pair picture has highlighted a lot of general advertisement for the breed and the industry. The photo was taken by Morgan Meisenheimer and should go down as one of her very best. However, the cattle in the photo are still legit and influential as indicative by this young herdsire prospect being offered. 964J is right from a lot of perspectives. A bull that came into the world at 71 pounds and has a maternal grandsire that has proven himself calving ease for many calf crops. He's one that ties high into his neck shoulder junction with a masculine look to his front third. Javelin's center body has always been up to snuff with a round, bold ideal spread while coming out big up high. There's no question that he has a tremendous amount of back shape and upper hip as well and should certainly prove to be suitable as a herdsire for any operation, seedstock or commercial. He's backed by a lot of cows that have built some of the most influential programs in the land and is worth of consideration. Selling full possession and 2/3 semen interest.

I Selling full possession and 2/3 semen interest.

Offered by: Brecken Shipman | 806.983.7226

PAL ECS Alright Alright

I We've been excited about this Bull since he was a calf. At a young age he had power, bone and "that look." This star faced purebred has all same qualities as a mature bull plus some. We love the fact that he combines a lower birth weight with exceptional growth, bone, foot and muscle shape, all while maintaining an impressive look. The grand sire, Loaded Up, has stood the test time and here is a grandson that should add value to any program. Whether you're wanting to had performance to your herd or you're trying to produce females that can excel in the show ring, this guy has all the characteristics to do it all.

I Selling full possession and 2/3 semen.

I This might be one of the most unique animals we have raised in a while. I'm a big fan of bulls that are stout and complete. Yes, some people fall in love with bulls who have that extra sexy front end and absolutely no hind end...I like mine with a little extra punch, awesome feet and legs like this guy has. We can meet up and see which type of bull is standing at the end of breeding season. Let me tell you, it will be bulls like this one EVERY SINGLE TIME. Gone Rogue is sired by the recently deceased and super popular Pays to Believe backed by an awesome Steel Force daughter that goes back to the breed matriarch 770P. Why wouldn't you want to own this bull? Study his build, his body mass, balance and his skeleton and then analyze how attractive he still is on the profile. We shouldn't be selling him-he's the keeping kind. Bid up sale day.

I No Fuss. No Frills. Just a good beef bull here. If you are looking for a bull to cover heifers or cows that has the build, balance, structural correctness, muscularity and performance to make show cattle, replacement stock or feeder cattle HERES YOUR BULL. Fast Tracks mother was our pick of the bred's at Jimmy Martins dispersal. She's hit a lick in a short period of time here; her first heifer calf sold to AR for \$25k and was quite competitive on the show circuit. Then she had this fella and we couldn't be happier with the consistency and kind she throws. Cattleman/women, buy this bull, turn him out and just sit back and enjoy what comes next. You will get easy calving, fast growing, good looking productive cattle no matter what your goals may be. You know, the low maintenance, high reward kind of cattle

FP/L Known By All 202K - there is no coincidence when it comes to his name as we knew big things were to come as we watched this bull develop. Being the second natural calf out of our upcoming donor, HA Gia 935G, it's evident that these genetics are going to be flat good which is seen in this bull's combination of structural integrity and balanced composition, packaged in an attractive, yet masculine build. Making his mark in the show ring, Known By All has already been awarded a piece of division at both shows he has attended; MN State Fair & American Royal. Study him and you'll see how long-spined, soft-footed, and exceptionally built he really is. With his grand dam and grand sire both being past NWSS champions - this bull has the same impeccable characteristics to go out and grab those same titles and make a difference in the industry. Trust me when I say, big things are yet to be written with this young bull's story and by the time it's all over both you and this stud will be Known By All!

Selling full possession. Retaining 1/4 semen interest and show rights through OKC. Discussion of Jr. Nationals and fall show rights can be discussed between buyer and seller.

Practical, rugged, and performance-oriented describe JRA Kearney 215K. Standing on extra circumference of foot, this loose-structured, big-bellied, wide-pinned bull is made to work in a variety of environments. Demonstrating his worth, Kearney has grown consistent with his EPD profile adjusting to 750 pounds at weaning time. An outcross to many of today's popular pedigrees, this future sire is backed by proven genetics. The influence of the C Diamond program can be found on both sides along with the WLE Shez It C056 cow family on the bottom side. There is predictability here with SWC Bar O Feeling It 856F herself selling for \$34,000 plus many of her maternal sisters highlighting the 2021 Black Label sale. The potential is great in JRA Kearney 215K who is also DNA tested homozygous polled.

Selling full possession and 2/3 semen interest.

I We were committed to bringing our best to OKC, so despite the interest we had in this guy in our home area, he's here for your appraisal. We all know the attention those "mean tweets" from our former POTUS garnered; Mean Tweets 1112J will have your utmost attention as well once you have a chance to study this prospective herd sire. He's stout and attractive in his design with an ample top and great extension through the neck and front end. Good shouldered and flexible on the move, particularly in his rear leg and pastern structure. With the passing of Something About Mary, his progeny are highly sought after and rightfully so. This guy is a twin and was able to run in the show ring though he was still a little green, placing second in class at the great Iowa State Fair to the division reserve, and then taking reserve division honors at the American Royal. His brother is making the trip to OK as well to be delivered to a ranch on the way; that speaks volumes of their Broker dam in terms of milking ability. We knew early on that these were not just a set of twins, but rather two potential herd sires. 1112J has really come into his own and will be a stand-out on sale day so come take a look. Don't miss a chance to own this impressive son of the great SAM.

One of the best purebred Simbrah bulls we have ever raised. Patron is your reigning 2022 Cattlemen Congress Grand Champion Simbrah Bull. He's red, stout, awesome structured, hairy, and has all the totals to set him apart from the rest! Study El Patron's pedigree, he's a total outcross to most any popular simbrah pedigrees and will work great on all our Dinero daughters. He's sired by one of our lead herdsires, Hagan Kodiak, and out of an American Chopper daughter. Patron is one of the best, bid with confidence! Semen sales will be very limited.

Buyer is responsible for all shipping costs and semen will ship from Integrated Genetics.

It is with great excitement that Jeff and I donate CLRWTR Ms Sugar K4F to benefit the American Simmental-Simbrah Foundation. Jeff and I believe whole-heartedly in programs that benefit youth, and even more so when it is something that is giving back to livestock kids. The late Peter Courtney was a dear friend to us here at Clear Water, and we are very proud to be a part of a program that he created to assist the next generation of Simmental breeders. CLRWTR

Ms Sugar K4F stems from one of the most exciting cow families there currently is in our breed; going back to the legendary WS Miss Sugar C4. Our sale has seen her influence with top selling future herd sires, and we are excited to watch the females influence our operation for many years to come. It was our goal to not only donate a heifer to the ASSF, but we wanted it to be a female we were extremely proud of and genetics that we felt would be beneficial to future generations; just as the monies raised from the Foundation are beneficial for years to come through Merit Award Scholarship recipients. K4F is the best of both worlds - she has great phenotypical characteristics as well as genetic merit through her outstanding set of EPDs.

D2 Fishing Trip from Fenton Farms

Donation

Division:
Donation

Adventure Lake is a private 80 acre lake in Ellisville Ms. Stocked with largemouth bass, copper nose bream, and white perch. The wide variety gives the angler much to choose from for enjoying the fishing experience. Adventure Lake has been fished by several professional anglers including Shaw Grisby, Cliff Pace, and Paul Elias. Our beautiful lodge sits overlooking the lake for a great view. Spend the night in our lodge and awake to a great full day of fishing. If timing is right, we may be able to include a local professional anglers to accompany you. Current record for largemouth bass is 13 lbs 4 ounces. 1 night lodging and a full day of fishing for 2 people.

D3 John Deere Pedal Tractor

Donation

Division:
Donation

A crowd favorite the last time they donated a pedal tractor, so Red River Farms has once again donated a John Deere pedal tractor that any toddler would love to have. Give a birthday gift, keep it at the grandparents so the kids have something to play with, or just put it on display. No matter what the reason, the money always goes to a great place - supporting the ASA.

ASA Sale Terms & Conditions ...

BIDDING AND APPLICABLE LAW: All cattle listed in this offering comply with prevailing sale terms and conditions as set forth by the laws of the state wherein the sale is conducted. There are no warranties, expressed or implied, by either the auctioneer or consignor, except as set forth herein, as to the merchantability of fitness for any particular purpose of any animal offered in this sale. The right to bid or the right to reject the final bid, if done before the hammer falls, is reserved for all sellers unless otherwise announced from the sale block or as prohibited by law in the state wherein the sale is being conducted.

ANNOUNCEMENTS: Any change of information other than in the catalog will be announced from the auction block and such announcements shall take precedence over printed material. All statements made from the auction block or those made by the seller (in private treaty) must be documented by seller if requested by the buyer at time of sale.

TERMS: Terms of sale are cash unless satisfactory credit arrangements have been made with the seller previous to the sale of any animal so affected.

PURCHASER'S RISK: Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold; except it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of twenty-four (24) hours after the sale, whichever occurs first.

HEALTH REQUIREMENTS:

1. All cattle entered for sale must meet the health regulations of the state in which they are sold. All other agreements regarding the health of the animal will be between the buyer and seller and should be documented in writing.

2. If sale cattle are returned to the seller for an adjustment, they must meet the health requirements of the state they are returned to.

CERTIFICATE OF REGISTRY: Each animal which is catalogued, offered and sold as a registered animal shall have a certificate of registry available at time of sale. When an animal is sold as "eligible for registry" or "registry applied for", the seller shall be responsible for obtaining the certificate of registry and for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

IDENTIFICATION: Each animal at time of sale must have a readable tattoo or brand corresponding to that shown on the certificate of registration.

AUTHENTICITY OF PEDIGREE: When an animal, through parental validation, is determined to have an ancestry other than that reported on the registration certificate, the buyer shall be entitled to a refund of the purchase price from the seller upon return of the animal to the farm of the seller at the seller's expense. The animal in question, at the buyer's option, may be exchanged for another animal of equal value, or if agreeable with the buyer, the seller may have the certificate returned to the buyer. Any adjustment provided herein, if selected, shall absolve the seller from further liability for authenticity of pedigree to the buyer.

BREEDING GUARANTEES AND DEFINITIONS:

- Females are guaranteed to be breeders, with the exception of:
 - Female calves sold at side of dam
 - Injury or disease occurring to the animal after time of sale
 - Gross negligence or willful misconduct on the part of the purchaser
 - Females used in ovum transplant after time of sale
 - Cows sold with calf at side or a female that calves after sale to a breeding prior to the date of sale
- Bulls are guaranteed to be breeders (definition as the ability to settle healthy cows by the time the bull is 18 months of age) with the exception of:
 - Bull calves sold at side of dam
 - Injury or disease occurring to the animal after time of sale
 - Gross negligence or willful misconduct on the part of the purchaser
 - Bulls shown competitively after sale
- Any guarantees with respect to the ability to freeze semen shall be made by separate agreement between buyer and seller.
- Safe in calf females are females that have been diagnosed pregnant by a competent veterinarian, and are pregnant at time of sale.
- A bred female is a female known to have been served by a bull either by natural breeding or artificial insemination, but it does not necessarily mean that the female is safe in calf to that service.
- A pasture bred female is a female that has been pastured with a designated bull and has been exposed for the time stated, but it does not necessarily mean that this female is safe in calf to that bull.
- An open female is a non-pregnant animal.
- Calves sold off their dams (split pairs) shall carry the full breeding guarantee.

PRIVILEGE OF PURCHASER TO EXAMINE: The purchaser of a female animal may have her examined within twenty-four (24) hours after the fall of the hammer and prior to removal from sale premises. The pregnancy status of breeding status of a female so examined, when found not to be as represented at the time of sale, is cause for the female to be returned to the seller as unsold.

EMBRYO TRANSFER:

1. Sellers should provide upon request a complete history of embryo transfer activity for any female offered for sale.

2. Withholding information on the existence of frozen embryos at the time of sale would be considered an unethical practice.

HORNED-SCURRED-POLLED: DEFINITIONS:

- HORNED** — An animal with a horn growth affixed to the skull that has or has not been removed.
- POLLED/SCURRED** — An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not become affixed to the skull at an older age.
- POLLED** — An animal with absence of horn growth. (An animal can have scurs and still be genetically polled.)
- SMOOTH POLLED** — A smooth-polled individual has no scurs and does not develop scurs later in life.

GUARANTEES:

- If an animal is sold as polled or polled/scurred and proves to be horned, the seller shall be obligated to refund the purchase price upon return of the animal to the farm of the seller at the expense of the seller or may be exchanged for a polled animal of equal value whichever is acceptable to the buyer. The buyer has thirty (30) days from date of sale to notify the seller that an adjustment is in order.
- If an animal is sold as smooth-polled and proves to be scurred, the seller shall be obligated to refund the price upon return of the animal to the farm of the seller at the expense of the seller or at the buyer's option shall be exchanged for a smooth-polled animal of equal value.
- If an animal is sold as polled and develops scurs, the seller will not be obligated to make any adjustment as a scurred animal is considered polled.
- If an animal is sold as polled and has scurs, it shall be so announced at the time of sale that the animal has scurs. If it is not announced and the buyer finds before the animal leaves the sale premises that the animal has scurs, the buyer must notify the seller of the findings. The seller shall then be obligated to refund the purchase price.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

The following adjustments do not preclude the right of the buyer and seller to mutually agree upon other terms and conditions for settlement of any dispute.

- All claims for adjustment or refund must be made in writing either six (6) months from the date of sale or no later than when the animal reaches 24 months of age whichever occurs later, with the exception of claims involving misrepresentation of service sire or as otherwise provided herein.
- In the event an animal is claimed to be a nonbreeder, the animal may be returned to the farm of the seller, at the buyer's expense, if in good physical condition, and the return is in compliance with the health requirements of the seller's state. The seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove the animal is a breeder. If at the end of six (6) months the seller is unable to prove the animal is a breeder, the seller shall, at the option of buyer, replace the animal with another equal value or refund the purchase price. Either option shall be deemed full satisfaction and settlement.
- If a female is sold as "safe in calf" to a given sire or sires on a specified date or dates and proves not to be as represented, the buyer is entitled to a refund of the purchase price from the seller upon return of the animal and resulting progeny thereof to the farm of the seller at the seller's expense.
- If a female is sold as "open" and proves to be with calf at time of sale and examined pregnant within sixty (60) days after sale, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever acceptable to the buyer. It shall be the obligation of the seller to bear any expenses incurred for transportation of the animal in question to the farm of the seller.

GENETIC TESTING AND TraitTrac STATUS: Sellers must identify the TraitTrac status and the results of any qualitative genetic testing performed on any animals or genetic material offered for sale. The ASA considers it an unethical practice to misrepresent or fail to disclose the TraitTrac status or qualitative genetic test results of any animal or genetic material.

DISCLOSURE OF MATERIAL INFORMATION: Sellers must disclose all material information concerning any animal or genetic material offered for sale. For the purposes of these Sale Terms and Conditions, "Material Information" is defined as any information which would be likely to affect the value of the animal or genetic material if the information were known to the public.

Material Information includes, but is not limited to, information related to genetic tests, blood tests, ultrasound pregnancy results, disease tests, pregnancy and fertility test results, information related to the sex and age of in utero calves or embryos, and information related to the fertilization status of in utero calves, including whether the calf was conceived via artificial insemination or natural service. The ASA considers it an unethical practice to misrepresent or fail to disclose any Material Information concerning an animal or genetic material offered for sale.

LIMITATIONS OF OBLIGATIONS: These sale terms and conditions constitute a binding legal obligation between the buyer and seller of any animal or genetic material sold under these terms and conditions. However, the ASA, its directors, officers, employees and agents do not assume any obligation, legal or otherwise, to enforce the sale terms and conditions agreed to between buyer and seller.
