## *The Difference*

CHIANINA « CHIANGUS « CHIFORD

# *Welcome...*

Welcome to the 3rd Annual -C- The Difference Sale, held in conjunction with the Cattleman's Congress in Oklahoma City, OK! The fall season has been a great one with Chianina genetics in very high demand across the country – many topping multi breed sales and going on to hang banners for their new owners already.

One thing is evident in the Chianina breed – there are so many different avenues we offer to the cattle industry. Looking to buy a bull that will add pounds to your commercial set of cows that will eventually go on and convert their feed to pounds of red meat in an efficient and economical way? Then there's a bull in this sale for you! Looking for a bull to develop a set of high-quality replacement females to make cows that have excellent maternal abilities with the longevity that we all are looking for? There's a bull in this sale for you! If you are looking for a bull to make show cattle, then there's a bull in this sale for you!

The females in the offering are second to none with some major opportunities to own some of the best females in the breed backed by pedigrees that always get to the backdrop from some of the most progressive breeders in the country. The genetic lots being offered are some of the most sought after embryos in the business. This is a sale you won't want to miss.

If you have any questions, please feel free to reach out to me, Heather, the breeders or any of the sale staff listed in the sale book. It's a great time to invest in the Chianina breed.

See you in OKC!

Since the day Stagecoach was born, we have been anxiously waiting to introduce this genetically elite Chiangus stud for public evaluation! This is the first son to sell from HIGG Henley 088H "Tennessee", who dominated the Chiangus female scene in 2021 and 2022. "Tennessee" capped off her illustrious show career with an incredible run at the 2022 Cattlemen's Congress in OKC, earning Champion Chiangus Female titles in both the Open and Jr shows. Not only is his dam a noteworthy individual, but his sire is also one that was bred in the purple, the popular Cardinal bull Crossover, whose dam is the prolific CARD Erroline. Stagecoach brings an undeniable amount of style and presence to the table with unmatched phenotype, mass and power and impeccable structure. We are certain he will work on a wide variety of cows and will appeal to cattlemen from all areas of the industry, no matter what your goals are. Over the years we've had our hands on some elite individuals, Stagecoach places himself near the top of that list.

Here is the most dominant 2023 born Chianina bull in the country. Champion Chianina bull at Tulsa, Reserve at Louisville, and Reserve at Junior Nationals. The only times he's been beaten is by 2 year olds. He's got the elite combination of immense power, unbelievable look and soft feet/legs. Blue Magic, his dam, is a donor cow we purchased from Jason Minnaert. She was shown by Luke Elder to Supreme Champion Female at the Iowa State Fair as well as top 5 female at the prestigious Iowa Beef Expo. His sire, Maternal Made, certainly needs no introduction...and it is important to note that DUST The Situation is also registered as a 25% Maine-Anjou. His pedigree is elite, while also being an outcross to all of today's Who Da Man genetics in the breed. If you want to raise Chi's with substance, look, and structure...DUST The Situation will put you at the front of the line.

This bull was the Reserve Grand Champion Chiangus Bull at the 2023 ACA National Show in Louisville. He is a massive, rugged, stout featured type of bull with an awesome hip and hind leg. He is stylish with lots of hair and a great disposition. We are excited to see what this bull will produce with his genetic background! We think he could be used on Chi-influenced cows or commercial cattle and a bonus, they would still register high % Chianina. This is a bull you won't want to miss!

We would like to introduce to you the new up and coming must use herdsire, ISLEY! This pedigree is no stranger to the industry and can be argued as one of the most dominant, with multiple full sibs in blood as national champions and high sellers throughout the country! Primo, Who Da Man and the 6640 cow can be found in most of the nations highest quality cattle and here is your chance to own one in herdsire form! Isley brings an ultra cool look with a smooth build, an extra punch of red meat, and as sound as they come! A bull built this good at such a young age doesn't come around that often. Don't miss your chance to own in on the future of the Chianina breed!

A flush brother to the Lot 8 bull, these bulls have the well known, highly sought-after Colburn Primo on a Who Da Man X Sultry 6640 cow pedigree that has demanded top dollar at numerous elite sales.

Though they are flush mates they are very different from each other. Who Knows has a clubbier look with a geeked up front, round rib and is square out his hip and wide ended. All that on a heavy structured, big footed base that he carries well.

We can't decide which one we like better. They both bring different attributes to the table. Whether you are a purebred breeder or a club calf breeder, one of these bulls should catch your attention.

*Retaining 1/3 semen interest.*

A big time show prospect out of one of the most dominant producing Chianina donors in the business, Who's Playing 6973D. This Encore daughter has the ideal build and structure to last, matched with added foot, bone, feature and design to always be a competitive force in the ring. Her unique presence with ideal rib design and muscle pattern gives her that added quality to be a top tier female like all of her sisters have before her.

Fun fact on why these 6973D daughters can go the long haul - 3 out of the last 4 National Champion Chianina Females in Louisville have all been maternal sibs to this featured lot right here. This one will be a lot of fun for the next two years and beyond.

This direct daughter out of the great Who Dat Lady 2037Z exudes pure class. There won't be a longer, more elegant fronted Chianina female to sell all year. One of her most unique qualities is being ultra long sided, all while not giving up any shape in her underline. When you set her in motion her big long strides allow her to move comfortably and with conviction. And we'd be remiss if we didn't mention that she is super shaggy...hair will never be an issue here! Being just a May born, she gives a youthful look with a ton of future ahead. She will certainly add to the long list of Who Dat Lady daughters who have beaten a path directly to the backdrop. Who Dat Lady 2037Z (a former National Champion) is close to amassing \$2 million in progeny raised, and daughters like this one are the reason why.

When looking at heifers we like to know the cow. We are not big in the Chiangus breed. We own one Chiangus cow and she is for sure one that gets the job done. You can see the cow in this heifer with the longevity, feet and legs. She will make someone very happy for years to come. As far as the show ring, her sire won nationally. Her dam also has two full sibs that were successful as calves at Junior Nationals and the NAILE Open Show. This young heifer has a bright future.

We can say so much about these two genetic lots but first and foremost be confident in going after either one of them. This Donor is flat out getting it done year in and year out! She has had multiple offspring win divisions on the green shavings as well as All Americans within the Chianina breed. One of her sons, PRES Black Frost 906G ET was the Grand Champion Bull at NAILE in 2020, Grand Champion Bull at OKC in 2021, an All American, and Show Bull of Year. She had a daughter that was an All American and was also Reserve Champion Chi Female at Fort Worth. Her offspring perform but they also sell well with her first set of embryo calves selling for an avg. of \$17,500 per calf. Some of these matings selling are proven, having multiple progeny sell for \$30,000 and up. Her daughters are turning out and consistently making cows that are paying for themselves. Be confident that they will work for the cowman as well as a guy raising show cattle. A few of these matings are fresh out of the lab! We could not be more excited to get them implanted and on the ground. We think they could be major home runs and be cattle that we are all trying to produce for the future! Buy with confidence and get a genetic opportunity that could make an impact in your program like their mother has impacted ours!

*Guaranteeing one pregnancy on each lot if implanted by a certified embryo technician. If we are out of a mating we will replace it with another out of the same cow with equal or greater value. Embryos will ship when lot paid in full.*

**Consigned by Schaeffer Show Cattle**

Great opportunity on the newest Who Da Man donor to our pen. She was a \$60,000 half-interest sale feature and is owned with Adam Griffith, Jason Hose & Sullivan Farms. In her first ET calf crop she averaged over \$10,000 on 6 heifers. Her ability to transmit the captivating look, functional foundation and some extreme top side pieces make her a perfect match with these options to continue transmitting the championship look she has. She has recently raised a sold a \$20,000 Primo heifer and a \$19,000 Encore heifer, both full sibs to the packages offered here.

The high % Chiangus Sire we have all been searching for. A sire that is producing functional, practical cattle with a show ring look. He has a CED of 10, a BW EPD of 0.7 and well-balanced numbers straight across. He has sired many champions with limited. Daughters include the 2021 National Junior Heifer Show Champion Chiangus Female shown by Kendall Harper and the 2023 NJHS Champion Chiangus Cow/Calf Pair shown by Kendall Harper. The most recent daughter to take home banners was exhibited by Kat Branscum. Her Driver daughter was named Champion Chiangus at the Kentucky Beef Expo, Reserve Grand Heifer at the Lincoln Trails Prospect Show, Champion Intermediate B/O & Owned Heifer at the 2023 National Junior Heifer Show, Champion AOB at the Kentucky State Fair, and Champion B/O at the North American.

Driver 118D is now deceased with limited semen in the bank. We feel this is the time to offer this lot with his gaining popularity.

## *The Difference*

CHIANINA « CHIANGUS « CHIFORD

LONGEVITY « CARCASS QUALITY « MATERNAL ABILITY

The cross between a Chianina/Chiangus with any of the British breeds emphasizes hybrid vigor, exceptional growth rates and carcass quality. Utilizing a Chianina or Chiangus bull on your females can increase weaning & yearling weights, yield grades, feed efficiency and more.

Successful beef production starts and ends with the cow. Chi and Chi-cross mothers provide a complete package of maternal skills full of staying power. The maternal heterosis bred into these cattle compliments the natural mothering ability of Chianina.

**MODERATE BIRTH WEIGHTS | HIGHER WEANING WEIGHTS |**

**HYBRID VIGOR | UDDER & FOOT STRUCTURE |**

**MATERNAL ABILITY & LONGEVITY | CARCASS QUALITY |**
