Welcome to the Cattlemen's Congress!

This year our breeders have produced another great sale offering packed with outstanding Maine-Anjou genetics. The American Maine-Anjou Association (AMAA) and our membership appreciate your interest in the **2024 Bright Lights Maine-Anjou Sale**, and we are thrilled that you made your way to Oklahoma City and the Cattlemen's Congress! Once again, the consignors have worked hard to bring you an elite group of bulls, select females and genetic lots.

With the current cattle markets and the need for efficiency and maximizing profit, we have seen a rapidly growing interest for Maine-Anjou. This demand has been evident by the strength in the sales in the recent months. The cattle industry is constantly attempting to maximize efficiency in the production of a pound of beef, and the **Power Cross** can deliver! Maine-Anjou cattle are docile, calving friendly, black-hided and modern designed without sacrifice. Our cattle can improve your bottom line by injecting feed efficiency, carcass yields, quality and eye appeal.

The cattle selling are backed by EPDs produced from our genetic evaluation performed by Angus Genetics, Inc. (AGI). Please let myself or any of the staff know if we can assist you. The AMAA is here to serve you and to provide support for your operation. We are here to help!

*****Note that we have consignors from throughout the country who can assist with the trucking of your purchases to all regions of the U.S.*****

MAINE-ANJOU – POWER WITHOUT SACRIFICE!

Best Regards,
M. Blake Nelson
AMAA Executive Vice-President

It's been a year since the last Bright Lights Sale, and what a difference a year makes! Maine-Anjou cattle have seen continued value and success across the country for longtime breeders as well as new members to the Association. Without a doubt, the cattle industry this fall has seen a strong push in price and demand—which was helped in large part by record lows in cattle inventory. With the release of the sire catalog over the last few springs, we have seen more and more focus on genetic diversity and the use of new and upcoming sires, which leads us to the cattle within the pages of this catalog.

Welcome to Cattlemen's Congress and the **2024 Bright Lights Maine-Anjou Sale!** It's a true honor to represent the cattle and consignors to this sale, alongside Blake, over the last few years. I know we are both looking forward to the offering come January. The set of cattle you'll find within these pages represents the progressiveness of Maine-Anjou breeders and their programs' commitment to bringing strong, stout, and predictable Maine-Anjou genetics to you and your operation.

As you flip through the catalog, you can take stock in the fact that these breeders are offering cattle they have put emphasis on through their selection of breeding decisions—from how cow families will align to how genetic merit will position to make them predictable and long-lasting. The cattle selling in Oklahoma City, are backed by breeders and an Association staff that want to see them work and make your operation profitable.

It is with great excitement that Blake and I would like to invite you to this year's Bright Lights Maine-Anjou Sale, hosted in conjunction with Cattlemen's Congress. Cattle will be on display the week prior to the sale. Please feel free to contact Blake or myself with any questions. We look forward to seeing you in OKC!

Joshua Cribbs
AMAA Director of Breed Improvement and Advancement

- If you are like we are when looking for a Maine-Anjou bull, you want them to be made with power from the ground up while still being attractive and well balanced. PRV Keep Dealing does just that. He is a big footed, sound traveling bull with body, extension and profile. Just the kind that checks all the boxes for most of us, and just the kind of bull to get out and cover cows and produce highly valuable offspring.

- When we saw BOE Fame during his show career, we knew this Garth son would be an excellent mating for BNWZ Calypso 416B. If you didn't notice, 416B is the older full sister to BNWZ Data Bank. We sold several full sisters to this bull in our 2022 fall heifer sale and have a couple more in our replacement pen. Here's a great combination of power and style in an attractive package.

• Rimpel Show Cattle, Athens, TX

• This herd bull prospect by BOE Epic has a tremendous amount of presence and an attractive look on the profile. Great head and neck design coming out of the top of his blade into a refined, flat shoulder. With his refinement and overall style, he still has plenty of product and overall dimension through the center portion of his body with plenty of muscle shape and depth progression throughout. Long hiped, long bodied and structurally correct, he brings the style and power you want in your progeny.

• Meyer Maine-Anjou Farms, Fayetteville, AR

• Selling 2/3 interest and full possession. Seller retains 1/3 semen interest.
• A solid patterned Fullblood bull with a modern day look and a pedigree that is close to 40% new French bloodlines, 40% 1970s original French imports and 20% Cunia, Novino and Etula descendants, predominant in most of today's black Maines. Muss is a thick, moderate, bold sprung bull loaded with outcross genetics in combination with muscle and phenotype from his sire and maternal traits from his dam and granddam. He is the result of 50 years of Maine-Anjou breeding experience and is ready to go to work for all segments of the breed. Parentage verified and 100K tested. Muss is entered in the Fort Worth Fullblood show.

• Richland Farms and Full Circle Farms, Trent, TX

• Selling 2/3 semen interest and full possession. Seller retains 1/3 semen interest.
• A direct son of Memphis Mafia out of a prolific flush mate sister to BNWZ Data Bank that has all the basic fundamentals, correctness and the look we all desire. His donor dam, "Caly," as we call her, stems from the prolific Sullivan Farms program and has stepped into our donor rotation, producing two national champion Maine Angus females in three short years as well as division winners at majors across the country. Daughters have averaged well for us, with an Epic daughter topping the list at \$40,000 to Clark Cattle of Texas. This is the first male offspring produced from Caly, and we are simply elated at the quality she has given us once again. Each year our industry searches for the next sire that has the ability to be a difference maker, and we truly believe Rags to Riches is just that sire! The most sought after and proven bloodline available within the breed, all wrapped up in a very rare purebred and low birth weight package. We believe that Rags to Riches has what it takes to be the next great go-to heifer safe promotional sire. He will be heavily used within our operations.

- James Farms, Paris, MO
- James Farms retains the right to collect 200 units of semen for in-herd use.
- It is seldom that you get a chance to buy an Epic, not to mention one that is a full sib to BK Ferris, the two-time National Champion who won both Denver and Fort Worth. Lover Boy continues to improve each week, and we are excited to see what he looks like at full maturity. We purchased him at the side of his dam, BK Comfort Zone 5135, at Buck's sale last spring. 5135 is a female known for producing great ones. We really thought about retaining this bull in our herd with the shortage of high percentage Maine bulls available, but this guy is stout and needs to go to someone who will promote him.

- TBT Cattle Company, Glenville, MN
- Two words: High Performance. That is the best way to describe this bull. He is big boned and big hiped. He is clean fronted and as sound as they come. Not only does he have the look, but he has the gene pool to back it all up! He is sired by the famous BOE Garth and out of an I80 daughter, and it clearly shows. If you want a bull to give your calves the look and still perform, then this bull has your name written all over him.

- Dustin Clark Cattle Company, Waxahachie, TX
- Unique, versatile and valuable! This High Maine star headed/smoke colored bull checks a lot of boxes. His genetic brilliance lends itself to him raising elite high percentage Maine-Anjou breeding stock, while his shape, structural integrity and color indicate he can sire high end show steers when used on the clubby bred cows. His dam, CMCC Barfly 407, was a sale feature in Jirl Buck's 2021 cow sale. We thought her combination of color and quality would allow us to raise really unique and really impressive high Maines. As you can see here, we weren't wrong! Barfly's dam was the National Champion MaineTainer in 2012. Bartender is the first progeny that we have had out of Barfly, but he definitely won't be the last. Get a head start here with this unique and high quality herd sire.

- Rimpel Show Cattle, Athens, TX
- This bull prospect hails from the great 0-04X cow family and has been a favorite in the bull lineup this year at Rimpel Show Cattle. Clean fronted and smooth shouldered with a neck coming high out of his blade, he presents an attractive profile. When you get in behind this bull, he continues to impress by being bold sprung in his rib design, big hipped and having plenty of muscle shape.

- Blind Badger Ranch, Fort Morgan, CO
- BBR Memphis Mafia cattle have been the talk of the country the last couple of years, selling as many high sellers and winners as any. Here's your chance to take home a direct son and start making your own noise. BBR Liberty is backed by the great Shania cow that has been very productive at BBR. His full sister, Mafia Queen, was exhibited by the Gensini family to multiple championships, and four full sisters in the last two years have averaged nearly \$50K. Like his sisters, Liberty has a neat look and awesome balance. When selecting a new herd sire, cow families are important, and BBR Liberty carries two of the best with Dominatrix and Shania.

- Gensini Show Cattle, Hennepin, IL
- Seller retains in-herd semen use.
- This might be the most consistent mating we've ever had. Two full brother steers sold for an average of \$22K; one went on to win several shows and ended his career as a class winner in Denver, even as a 7/8 Maine-Anjou! We kept the red full brother as our herd sire last year. This bull has the red gene. His mother might be the best looking cow on our place!

- Rimpel Show Cattle, Athens, TX
- Talk about eye catching on this BKMT Game On son! Striking on the profile, he catches your eye with his smooth lines, his head and neck design coming high out of his blade, and his refined and smooth front end. Even with his beautiful front end and attractive build, he does not give up any power, as he is further complemented with great muscle shape, bold spring of rib, and plenty of depth progression throughout his rib cage and flank.

- Wacey McDuffee Cattle Company and Isaiah Sallee, Porum, OK
- Bulleit has been a looker since day one. A High Maine calving ease bull with a birth weight of 67 lbs. This one checks all of the boxes with a massive middle, impeccable structure and a big, soft foot with a touch of flash, which makes for one unique creature. He comes from our proven "Ivanka" donor, who left her mark as a many-time champion and Reserve Supreme Commercial Heifer at the Oklahoma Youth Expo in 2017 and is now raising many champions herself. Don't let his young age fool you. Bulleit will add that soft hair and show ring presence to any program, regardless of breed. With him being a High Maine, we believe that backdrops and banners are in his future!

- Holt Cattle Company and Maggie Holt, Mina, SD
- Seller retains in-herd semen use.
- Fast Car 181L is one of the most unique bull calves that you could possibly come across, both physically and genetically. Sired by Griswold's and Beaupez's BOE Done Deal and out of a tremendous young Maternal Made daughter that goes back to Who Da Man and 180, this 3/4-blood High Maine dual registers as a 4.5% Chi and is the real deal. From the ground up, Fast Car has power and mass in a balanced and ultra-attractive package with incredible hair and a second-to-none disposition. Over the years, we have raised and sold some elite individuals but few we've been more impressed with than Fast Car. He's been intriguing since day one, with the phenotype and genetic package that will appeal to a variety of cattlemen.

- **Buck Cattle Company and Morton Cattle Company, Stratford, OK**
- BKMT Longshot is a big hipped, stout made bull with killer looks, body and great running gear. He is sired by the popular and proven DUEL Icon, who has covered the country with champions and top sellers. His dam, BK Belly Dancer, has hit every time with every sire she's been mated to. Her daughters are proven champions, and her sons make herd bulls. Longshot is her stoutest featured son to date, offering a very unique combination of power and structural soundness with a proven, predictable pedigree.

- Buck Cattle Company and Morton Cattle Company, Stratford, OK
- BKMT Klassic is the most exciting Maine Angus bull we have ever produced. He has look, power and pedigree, and he is sure to etch his mark in the history books. He is sired by Forbes, who was a very popular Angus champion and has sired multiple high sellers and champions across the country. Klassic's dam, BKMT Dance Lessons, was the 2018 Maine Junior National Grand Champion and is a leading donor in the Buck/Morton program. She is the dam of the very popular BKMT Klassified, who was Grand Champion Bull at the 2023 Cattlemen's Congress and 2023 Fort Worth Stock Show. She is also the dam of the record selling BKMT Class Act 2016K, Reserve Champion Maine Angus Female at the 2023 Junior National for Tripp Lewis. BKMT Klassic is a true breeding bull with an extremely bright future!

- James Farms, Paris, MO
- Game Changer is the natural calf out of our Harmony x Style (142) donor. He brings a long spine and tremendous mass in a soft package. He is the brother to JF Game Plan 47L ET, Lot 33, and these bulls complement each other well. You really need to see them in person to appreciate them. Our Harmony x Style donor is proving to be a benchmark in our herd. I am a big fan of End Game. He brought a lot to advance the Maine breed, and these sons possess many of those advantages.

- Bockman Cattle and Courtney Bockman, Weeping Water, NE
- WE COMIN to OKC with what we feel is the most unique animal we have raised! If you've had a chance to look at sales this past fall, you've seen what momentum Good As It Gets has, and it's easy to see why here. CEBC We Comin is long sided and tremendous fronted but still maintains depth of body and a killer look. He doesn't disappoint from behind and motors around with a big foot underneath that never misses a step. Study this pedigree on both sides, including greats such as Maternal Made, Whiskey and Daddys Money, not to mention going back to DUNK Lucy. This one's mother gets it done every year. A full sib was named Third Overall Chi Composite at the Junior National this past summer in Grand Island for the Holm family. With Good As It Gets being lost way too soon, his genetics are only going to continue to increase in value. Don't miss your chance to jump in here on a son that looks to continue in his footsteps.

• City View Farms, Tlach Family, Prole, IA

• This Epic son has been a favorite of many experienced evaluators this fall. He is out of our "Ivy" donor, shown successfully by Jenna in 2020. Still a young cow, she continues to move to the front of our donor battery. A 50% MaineTainer, TLAC General 743L is flawless in his structure yet has the power and bone work to go out and make an excellent herd bull prospect. We love the Epic calves, and that combined with the power in his dam's pedigree will make the owner of this bull very happy to see his first crop of calves.

• Gensini Show Cattle, Hennepin, IL

• Seller retains in-herd semen use.

• This bull was chosen as the Reserve Grand Champion MaineTainer bull at the 2023 North American in Louisville. He's out of our "Momma Mia" donor, a Style/Red Thunder that won several shows for us a few years back. In just three short years, she's produced over \$300K in progeny sales. Her first natural calf is our own AI sire "2Fold" that we own with Rodgers and Wilson. This bull's only full sib just sold for \$30K and is headed to a great home in Iowa. Elite animal here!

- Buck Cattle Company, Madill, OK
- Here is an extremely exciting MaineTainer bull that offers a thrilling pedigree with an impeccable look and power combination. He has been a standout from birth...cocky built, stout hipped, big boned, soft bodied and sound structured. He is sired by Deion, a Primetime son who was purchased in the first OKC Bright Lights Sale from Kendall Bremer. His dam is an Epic daughter out of the Dream Maker donor. You can't build a more maternal pedigree than this one has.

- City View Farms, Tlach Family, Prole, IA
- Our first year bringing bulls to the Congress, we brought a bull that was admired by many and purchased by Jason Minneart, now known as "Safety First." This year we are offering the public a chance to own TLAC Hero 9922L, a full brother to TLAC Safety First 1913J. There are many similarities to Safety First in this bull. He has impeccable eye appeal, structure and balance. We believe that this guy is more opened up in his rib cage and ready to go to work for you. We were challenged by many to bring back a full brother; now is your chance to take him home. This one is of very high quality. Don't miss out.

THE AMERICAN MAINE-ANJOU ASSOCIATION'S MAINE ANGUS PROGRAM

WHAT IS MAINE ANGUS? The Maine Angus program is an initiative created by the American Maine-Anjou Association (AMAA) to showcase the complementation of Maine-Anjou genetics when crossed with Angus or Red Angus cattle. This program will reveal Maine-Anjou cattle's ability to enhance feed efficiency and red meat yield when placed on British-based genetics. This program should provide seedstock that will increase production and carcass yield through heterosis.

The name Maine Angus is both strong and informative by stating exactly what breeds are present in said animal. The standard requirement is that both parents must be registered at the AMAA, American Angus Association (AAA) or Red Angus Association of America (RAAA). This will provide confirmed lineage and genetic information along with valuable EPDs. Through a partnership with the AAA, EPDs are updated with the latest genetic evaluation by the AAA, which will provide breeders and customers the best genetic prediction available. This program is focused on producing quality registered offspring that will aid in the incorporation of Maine-Anjou genetics into the mainstream of the USA beef sector.

PROGRAM STANDARDS Maine Angus refers to cattle with the following characteristics: a) The animal will have from 3/8 Maine-Anjou to 5/8 Maine-Anjou blood and have from 3/8 registered Angus to 5/8 registered Angus and/or registered Red Angus blood; b) Both parents must be registered at the AMAA, AAA or RAAA to confirm lineage; c) Qualifying cattle can have no more than 1/8 of non-registered blood or other breeds; d) A registered Maine Angus bull must be proven free of genetic defects PHA and TH. Depending on the Maine Angus bull's genetic makeup, the individual must also be proven free of known Angus lethal genetic defects (e.g. AM, NH and CA) and/or known lethal Red Angus genetic defects (e.g. AM, NH, CA and OS), whether determined by pedigree or test; e) A registered Maine Angus female must be proven free of PHA and TH, whether identified by pedigree or test.

MAINE ANGUS COLOR STANDARDS All qualifying individuals will be predominantly solid black or red in color. White markings are only allowed on the underline and switch of the tail. Feet and legs must be solid black or red. NOTE: All Maine Angus animals that do not meet the color requirement but were registered prior to Jan. 1, 2019, will retain their Maine Angus papers. They will not be able to exhibit/show in the Maine Angus division but are still eligible to show as MaineTainers. If an animal is registered Maine Angus but is found to not meet the color requirements, they will be reverted to a MaineTainer registration.

- **Black Crest Cattle, Corwine Family, Quenemo, KS**
- Bank Robber is the more powerful Data Bank son of our two consignments. His depth and width combined with his structural correctness make him a great candidate for a herd sire. His dam was the 2019 high selling bred heifer in the Dakota Classic for Vanhove. She is a massive Maternal Made daughter that leads our donor pen. A lot of excitement surrounds this bull, and his color is an added extra.

- **Black Crest Cattle, Corwine Family, Quenemo, KS**
- Bank Roll is another Data Bank son we are bringing to the Bright Lights. A full brother to Lot 36, he brings balance and profile in a structurally correct package. He drew a bad recip and is greener than his full brother but has made great progress since weaning. This black, polled herd sire prospect has great value for any herd.

- **Bremer Show Cattle and Abree Belcher, Blakesburg, IA**
- We have plans for KABG Test of Time to continue his father's and grandfather's legacies. A bull this bullet proof doesn't come along every day. He is impeccably built from the side with running gear second to none while also having more than enough muscle for the powerfully built cows we have in the Maine-Anjou breed. Unless you have been hanging out with a caveman, you have heard of his dam, Paige, also referred to as 960... the donor that had 10 head, both steers and heifers, gross over \$300,000. The Maine-Anjou breed is as hot as ever, and this rascal could be the next big thing!

- Blind Badger Ranch, Fort Morgan, CO
- Maine Angus bulls are rarely built like this. BBR Legacy is big legged, square built and as arrogant as you can make one. Good cattle are fun to look at standing still, but the best ones are even better in motion. BBR Legacy is so loose made in his skeleton and yet so well balanced and overwhelming in his presence. To top it all off, he has that coal black shag that we are all chasing in the show ring. Mate BBR Legacy to your Maine Angus cows to keep the offspring in the program, and then take him to your purebreds to make highs and create your own Legacy.

- Tyler Loudon, Creston, IA
- Some say mystical. Some say incredible. We all know her as the *UNICORN!* The queen of them all. The first Fullblood in the history of the Junior National to place in the Top Five in the High Maine division. She is an undefeated champion in the Fullblood division and one of the best Fullblood females in modern history. Her sisters have all been good, but she is undoubtedly the best one to ever come out of Sequel 7201E. If you want to improve your Maine-Anjou herd, this is how you do it. Her breeding potential is endless. Make more out-of-this-world Fullbloods, make Maine Angus, both red and black, make MaineTainers, or breed up to a higher-level purebred—it's totally up to you!

- Tyler Loudon, Creston, IA
- X factor! If you think the unicorn is special, here's the magical creator. The maker of masterpieces. She herself was a Junior National champion and national champion Fullblood, and she has been the mother of the champion or reserve at every major Fullblood show since her retirement. She was the first Fullblood to display a big belly and deep body. Until her daughter hit the show ring, she was considered the best Fullblood female to be shown in the modern Maine-Anjou breed. Lots of breeding options here. If you want to make jaw dropping Fullbloods, we have made the road map. If there is a cow made to make Maine Angus, she is it! Everyone is trying to make the new high Maine bull; these genetics are the key.

TERMS OF LOT 48 IVF CYCLE

- The buyer will receive a minimum of six transferable embryos, guaranteeing two 60-day pregnancies with NO cap.
- The buyer pays all costs associated with the flush, including the cost of semen.
- The donor selected will be available to flush immediately following the sale. Please contact the seller for further details.

- Carlson Maine-Anjou, Plattsburg, MO
- Invest now! This is a rare opportunity to purchase semen on RRRC Prints Money, one of the best outcross bulls to come along in the Maine breed in the last decade. He was a feature in last year's Bright Lights Sale when a portion sold in OKC. Phenotype coupled with superior performance best describes this beast. There is no I80 or Irish Whiskey influence in his pedigree. His functional soundness, body and style are further complemented by his super maternal lines on both the Maine and Angus sides of his pedigree. The Angus originates from SAV and a Dameron donor that won Denver and the Angus Junior National (full sib to First Class). The Maine side stems twice from 76R (former Show Heifer of the Year). Every cow in our program has her at least once in her pedigree. A low birth weight EPD of -0.8 and an actual BW of 77 lbs. make him an excellent option to use on heifers. His birth to yearling EPD spread is one of the largest in the breed, with his growth EPDs ranking in the top 3% of the breed. His sire was the best high percentage bull we've ever used in our operation...consistently low birth weight (-2.5 EPD) with excellent growth and picture-perfect females.

- Bremer Show Cattle, Blakesburg, IA
- High Maine-Anjou females bred and built like this don't come around every day. Her dam, 322, is of legendary status. Few cows in the world have produced AI sires, National Champion Heifers and high-end show steers that have succeeded at every level. This daughter of the late TJSC End Game 61G literally has no holes. Make sure when you come to Oklahoma City you check out this elite High Maine-Anjou female we saved for this very sale!

8	1.3	43	60	23	44	-1	6	.34	.09	-.03

- **Dustin Clark Cattle Company, Waxahachie, TX**
- This young May born heifer is a direct daughter of the famed NMR 0-04X cow, best known as Maternal Made's dam. 0-04X in the last three years has produced two Champion Maines at San Antonio, a Champion MaineTainer at Houston, Reserve Champion Maine at Houston and Champion Maine at Austin. This ultra-green Data Bank daughter will surely add to those accolades in the show ring. The Data Bank x 0-04X mating consistently produces 3/4 Maine-Anjou females that possess a ton of look, robust middle and structural correctness. These daughters are progressive in their build and because of that will blaze trails straight to the backdrop. We were incredibly fortunate to be able to buy 0-04X from Barry Reimann and John Griswold in 2022. We made the investment knowing that over the last four years, at least ten 0-04X daughters have averaged over \$25,000 in Griswold's Classic Sale. In addition to being profitable, we knew she'd produce ones we'd be proud to call ours. This female is one we are very proud to offer.

- **Par Five Cattle Company, Lake City, SD**
- This female represents the quality we strive for at Par Five, and she is definitely ready for the Bright Lights of Oklahoma City. She combines everything you need for success, beginning with great running gear, the right kind of center body shape and the boldness of rib we all seek along with that sweet, attractive, extended front that will always get noticed. This heifer's cow family traces back to the very first Maine-Anjou female Haley showed. Lady Jasmine is sired by PRV Haley's Comet 145H, a DUEL Aint Bluffin son out of our 2085Z donor that was the 2021 Champion Bred-and-Owned Maine-Anjou Bull at the Junior National in Chickasha. "Comet," as we call him, gets the job done.

- Par Five Cattle Company, Lake City, SD
- We really like this Data Bank daughter out of my pick of the 2020 Griswold Classic Sale. She is flashy and sassy with loads of center body dimension, just like her mother. This one is more than just a pretty picture, as she is also backed by a power-packed pedigree. Study this female and find her under the Bright Lights in Oklahoma City. This is the second heifer in a row produced by this Garth x Dixie Erica cow, and I certainly expect this female to be as consistent a producer as her mother. If you like your females backed by some of the best cow families in the Maine-Anjou breed, then you know this heifer will be a smart investment.

- Par Five Cattle Company, Lake City, SD
- Here is a really special "Comet" daughter that was a pasture favorite for us all summer. When you study what this heifer has to offer, you can see why we trust PRV Haley's Comet to get the job done. This female is up headed, big bodied and heavy boned with a huge foot. Her femininity is complemented by her extra stoutness and body volume that creates a striking profile and gets her noticed. I really love this heifer's mother. One of my favorite BPF Middle Man females, she descends from a BBR female Justin showed during his junior career. This one will be fun to show, and when her days at the backdrop are over, you can bet she will generate some high value offspring.

(405) 400-9505 schedule@ccilive
Over 20 years in livestock marketing!

AMERICAN MAINE-ANJOU ASSOCIATION SALE TERMS & CONDITIONS

Terms: Terms of the sale are cash or check, payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certificate check as settlement before releasing any cattle.

Risk: All animals are the owner's risk prior to their sale and become the property of the purchaser as soon as declared "sold" by the auctioneer (but will be cared for at the purchaser's risk for a reasonable length of time).

Bidding: All animals sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer, and his decision will be final.

Health: All animals sell with proper individual health certificates, making them eligible for interstate transport to most destinations within the U.S.

Announcements: Announcements from the auction block will take precedence over statements in the sale catalog and other advertising. We reserve the right to withdraw any sale lot not meeting our specifications prior to sale time.

Registry Certificates: All animals shall carry papers from the American Maine-Anjou Association. These papers will be transferred to the new owner at the consignor's expense.

Shipping: Assistance will be given in making shipment after the sale, but no risk will be assumed by the seller. Expenses incident thereto are the responsibility of the purchaser, who should furnish shipping instructions at time of settlement. We recommend that insurance be obtained on lots purchased.

Breeding Guarantee: Females – Females represented as being "safe in calf" will have been examined and declared safe; they are considered breeders without further guarantee. Cows with calves at side shall be considered breeders also without further guarantee. NO guarantee shall apply to suckling calves. NO guarantee is given that bred females will deliver a live calf. **Bulls and Females** – Any animal that appears to be a non-breeder within six months after date of sale, if in healthy condition and of breeding age, may be returned to seller at buyer's expense. Seller will then reserve the right to prove the animal a breeder within a six-month period. Should the animal fail to prove a breeder, the seller, at their option, may either return purchase price to buyer or replace the animal with another of equal value in full settlement and satisfaction of all claims. In no event shall seller be responsible for more than the purchase price. In case the animal in question should develop to be a problem breeder due to negligence or improper management by the purchaser, the seller's guarantee does not apply. In cases where the animal is subjected to any hormonal or surgical reproduction techniques after this sale, this guarantee shall be null and void. Any complaints regarding breeding difficulties must be reported in writing by the buyer to seller within the time limit specified above, and animals returned must be free from disease and in good condition.

Liabilities: All persons who attend the sale do so at their own risk. The sellers and the sale manager assume no liability, legal or otherwise, for any accidents that may occur. Neither does the sale manager assume any liability for loss of or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and representatives act only as a medium between buyer and seller. They are not responsible in any way for any failure on the part of the buyer and the seller to live up to his obligations or for the truth of any warranties or representation expressed or implied. Neither does the sale manager assume any financial obligations to collect or enforce collections of monies between buyer and seller.

Contract: The above terms and guarantees shall constitute a contract between buyer seller of each animal and shall be equally binding on both. Animals that are resold following purchase in this sale shall constitute a separate transaction, and the rights and obligations of the two parties connected thereto are not covered by these Sale Terms and Conditions.
