GENERAL SALE INFORMATION

American Shorthorn Association Genetic Condition Disclaimer: Unless an animal is listed on the American Shorthorn Association "genetic condition status list", the American Shorthorn Association makes no representation of any kind as to whether or not the animal has a genetic condition.

Terms And Conditions: Terms of the sale are cash payable to the clerk following the sale and before the cattle are removed from the premises.

Billed Accounts: All billed accounts are due within 10 days following the date of the sale.

Health: Each animal selling will be accompanied with a state approved health certificate from its state of origin. Buyers should make themselves aware of the health requirements for their respective states.

Breeding Guarantee: The Suggested Breeding Guarantee as endorsed by the American Shorthorn Association will be followed.

Registration And Transfer: All animals sell with completed pedigrees or applications for registration in the hands of the sale manager.

Announcements made from the auction block take precedence over all printed material in this catalog.

Insurance will be available for your purchases at the sale. Contact the clerk at the time of settlement for your insurance needs.

Liability: Each animal selling will be at the buyer's risk as soon as sold. Neither the owners, employees, auctioneer, sale consultants, sale manager, Cattleman's Congress, American Shorthorn Association or other affiliated personnel can be held responsible for any accidents, but will make every effort to provide for the safety and comfort of those attending.

Mailed Bids: We hope you will be able to attend. If you cannot attend, you may mail or telephone bids to the sale manager or representatives.

It is with great excitement we offer this incredible son of Payweight who just two years ago set the breeds all-time record in this very sale. Hype is out of unquestionably our best and most proven donor. Mona Lisa reward has not only dominated the show ring the past decade but she is the epitome of function, fertility, longevity, and the maternal strengths of the shorthorn mother cow. Hype offers the same explosive Growth, tremendous structural integrity and fantastic look of his sire, but with a shot more lower quarter and stifle. With feel with this bulls added performance and size, perfect hip and structural design, along with his color and hair he is perfect for the large number of Red Knight, Hot Commodity and Red Reward genetics that our breed is currently loaded with. Colored and roan cattle are as popular as they have ever been and this guy will do it.

Selling full possession and 50% semen interest.

This Triple Clean Ultimate Reward son has had us excited since the day he hit the ground. As the months went on it was apparent that excitement was justified. Pierce is an attractive, well balanced bull prospect with impeccable structure that has carried him to purple every time he has hit the ring. Rev. Champion MD State Fair, Div 2 Champion KILE, Div 2 Rev. Champion NAILE. You always hear "Build from the ground up" he is sure one to do that with. He's had all his testing done and is an AI Certified Sire.

We are offering full possession after July 1 so we can show him at the 2024 NJSS and 50% semen interest.

We would be extremely excited to work with the buyer to show him in to 2024. He will remain in Gettysburg until July 1 and be insured at OUR expenses of full hammer price.

Sire - Eighteen Seventy Two

Dam - SULL Ruby Rose 7023E ET

A new unique mating here at Cagwin farms from the very foundation of our breeding program that combines some of the hottest pedigrees in the Shorthorn breed today. SULL Ruby Rose 7023 ET was recognized as a PACER performance dam at the annual Shorthorn meeting in Kansas City this year and is a direct daughter of the great RED TRAVELER 2405Z cow from Sullivans. She has proven time and time again to be our go to herd bull producer, raising offspring such as the calving ease phenomenon CCS Can't Stop 43J, and CCS Over Time 316H that is doing a tremendous job for Hill Shorthorns. CCS 1872 410L is the exact product that we had hoped for when we bred this cow to the \$200,000 syndicated sire, Eighteen Seventy Two. He possesses the show ring presence and skeletal quality that we have come to expect from our Eighteen Seventy Two progeny and is interjected with the muscle shape and power that we have consistently seen from the Red Traveler cow family. Don't hesitate to own this intriguing Eighteen Seventy Two son that is sure to be a versatile breeding piece for any progressive breeder.

Dam - Waukaru Adelina 0111

SR Dream Treasure GB is built for this ever changing, modern beef industry to be impactful on a progressive herd for generations, yielding profit-driven daughters and highly marketable sons. His sire is a senior herd sire for Waukaru and imported from Australia's leading stud herd, Spry's, whose semen is limited, not on the open market, and being used heavily at Outback Shorthorns of NSW. Owner Greg Shuller reports "The Spry's Gigabytes N122s are easily the softest made, easiest fleshing females of the mob. They all came in pregnant during our recent drought. None of our other sire groups can make that claim." Recently, all bred heifers sired by N122 at Waukaru were vet examined safe to the timed AI date, 100% bred AI, each one straw, one try. The Gigabytes N122s are bred to excel in today's market; in the US 33 progeny have combined progeny ratio of 118 for IMF. Dream Treasure GB ranks in the top 3% of the non-parent population for marbling, and is one 42 bull sin the entire breed that rank above the top 20% for REA and top 23% for marbling. Dream Treasure GB's dam comes from a cow family designed by the late Keith Lauer, Abilene, KS, and has been a mainstay at Waukaru for over a quarter century. Waukaru Adelina 0111 is a beefy, bodily designed herd bull producer who was a higher seller at the "2021 Summit Sale". Maternal in build with nearly and ideal udder, 0111's mating to Gigabytes N122 yields a powerful, big-muscled sire. Dream Treasure GB is explosive down his top, stout hipped and carries shape low into his stifle and quarter. Gerald Spry's relentless selection pressure of skeleton put a dark, wide foot underneath, with plenty of depth to his heel. Genetically, Dream Treasure is unique within the breed, in the top 5% for the population for WW, YW, TM and MB.

Selling 100% Possession. Retaining a non-revenue sharing, in-herd-use semen interest.

Sire - Kane Catwalk 685G ET

As a young breeder in this association we strive to bring high quality breeding pieces to offer genetic diversity and we believe this catwalk son does just that. His unique build and attractive profile combined with rib and body has us really excited for what he can do in the shorthorn industry. When it comes to his genetic makeup, his proof is not only in his sire's side but his dam's as well. This high caliber, large framed, and attractive female has already worked well in our program by producing the 2021 Grand Champion Shorthorn Heifer and the 2022 Reserve Grand Champion Shorthorn Heifer at OYE the world largest youth expo. We are excited to see what this young bull prospect can do in your program as the years go on.

Coming in Hot. This son of Proud As Hale (senior herd sire at Hale Farms) and JM Vortec Rider (Show Bull of the year in 2015) and No Foolin on the dam side, is a stout and smooth made bull who has gotten quite a bit of attention over the last year. No doubt he will bring the heat you need in your herd.

Selling full possession and 75% semen interest.

This impressive female has a great maternal look that goes back to one of Kaitlyn's best cows, who was the Show Heifer of the Year in 2020 for the state of Wisconsin. With being a younger female, she has a lot of cool pieces about her. She's stout made, long spined, good haired, and feminine. She will be an amazing addition to someone's herd, making unique females but also make an awesome show heifer in the July division!

This is an extremely impressive high quality cherry red heifer that replicates a lot of the dominant traits of her dam and grand-dam. Her mother was a past division winner at Junior Nationals along with Champion Shorthorn heifer at the MN State Fair for Maddie. This mating to JSF Manhattan, is Peach's first calf! This is a powerhouse, stout, soft middled, and good fronted heifer as we have ever raised. With a shot of genetic outcross with Manhattan makes this heifer so appealing!

ShorthornPlus

This all white heifer is a full sib to the high seller in our 2023 sale and Champion Div 2 Shorthorn Plus NAILE, MFS Lucy's Masha. She was too young for our sale and we had her in the replacement pen, but we feel her quality demands the opportunity to compete in the ring. Her Dam is SULL Lucy's Right (Right Direction x Crystals Lucy) aka "Ice Cream", a many time champion for Burkhart family, including Champion at Iowa State Fair. Limit Up was the 2022 and 2023 Grand Champion Shorthorn Plus Bull at both NAILE and OKC. In 2023 he was named Res. Grand Overall Bull at OKC.

After our success selling a heifer here last year I knew I wanted to save a good one for the Summit again. Making final cuts for the sales this fall this heifer jumped out at me for this opportunity. Her big cage, stout square hip and flawless look and build not only make her a contender but all showcase what her sire SFF Ragweed had been doing her at our place. So far the Ragweed cattle sold this fall are averaging 13,500 and I think this heifer is a good as any of them. If it's up to me, this won't be her only trip to OKC and next year I bet she is here hunting!

ASA Disclosure of Genetic Conditions and Performance Data

- The seller is responsible for disclosure of all known Genetic Conditions at the time of sale. The seller should display in the catalog all Genetic Conditions known to the breed at the time of cataloging. For each animal Genetic Conditions should be displayed in the same format as on the original registration paper or disclosed in a separate box or prominent place for buyers to be notified of the results (both free or carrier status) from testing for Genetic Conditions.
- The buyer assumes all risk associated with the purchase of known and unknown Genetic Conditions of carrier animals. (Provided the seller has disclosed all Shorthorn Genetic Conditions known to the seller and /or to the Shorthorn breed at the time of sale)
 - The Seller is not responsible for any new Genetic Conditions that may be determined or discovered by the ASA after the time of sale for any animal or genetic material.
 - The seller should print in the catalog all EPDs and accuracies for each EPD trait and all breed indexes on each animal selling. This information should be presented in a standardized manner as seen in sire summaries or breed EPD information released by ASA. This performance information should be the latest and most accurate data at the time the catalog is printed, providing the animal qualifies to have EPDs attached to their registered pedigree. Any other pertinent performance data such as BW, WW, YW or Carcass Data that is available should be added to the performance listing in the catalog at the seller's discretion.
 - Special logos with letter terminologies will be given to breeder's sales and / or individual lots in a sale that make it a priority to test and disclose all Genetic Conditions.
 - DSF PHAF THF** (Genetic Condition Free) - The green genetic condition with an "F" listed means it has been tested and confirmed FREE of that Genetic Condition.
 - DSC PHAC THC** (Genetic Condition Carrier) - The red genetic condition with an "C" listed means it has been tested and confirmed CARRIER of that Genetic Condition.
 - DSP PHAP THP** (Genetic Condition Potential) - The yellow genetic condition with an "P" Listed means the animal has NOT been tested but animal is a POTENTIAL CARRIER of that Genetic Condition. This animal has a tested carrier in its immediate 3-generation pedigree and is considered a potential carrier.
 - DSH PHAH THH** (Genetic Condition Potential) - The purple genetic condition with an "H" Listed means the animal has been tested and is a homozygous for this Genetic Condition.
- Any donor dam and AI sire that does not have all the required tests that makes them Donor Dam Qualified and/or AI Sire Qualified; the resulting progeny will need to be tested for those tests missing in order to be eligible for registration at the American Shorthorn Association.

BRED SHORTHORN HEIFERS

Pick of the Pen

This beautiful pen of solid red heifers are all sired by BOY Free Trade. A little known Hot Commodity son out of the historic Cumberland cow family, that has produced tremendous offspring. Unfortunately, a very limited amount of Free Trade semen was ever made available on the open market. These heifers provide a unique opportunity to purchase vary rare genetics and add them to your herd.

All three AI'ed on 4/22/23 to JSF Times Square 120G and examined safe, due 1/29/24.

Take your pick on the bottom side. Two heifers out of our KANE Captain donor, the other goes back to FSF Stardust. Either way all three are solid red, big ribbed, good muscled, free moving sound females that will make fantastic brood cows, and a great addition to any operation.

The Juanita cow family is a main stay at Shadybrook in Canada, where they have dominated every show ring north of the border. This moderate, free moving heifer will demonstrate why they are so popular.

We like these 4 heifers together so much that we have yet to decide which one will be the "alternate". This heifer has royalty in her blood. O'Cherri 307 was Supreme Champion at the Minnesota State Fair. Like her dam and grand dam, this heifer has such tremendous rib shape and is so sound, we think she could be bred for show steers or heifers.

You can't make a better pedigree on the bottom side of Cheri's pedigree. It's a who's who of dominant Shorthorn show genetics. Simple Choice is doing a great job on the top side. He's lowering birth weight, while maintaining growth and style in his calves. His offspring have excelled in the show ring, winning the Minnesota State Fair, Tri-State Fair, and winning divisions in Tulsa and Jr Nationals.

Selling the rights to one IVF cycle, to be completed at TransOva Genetics or GenetiQ. Seller guarantees 6 transferable embryos. Buyer is responsible for all semen and flush expenses. Flush to take place March 2024.

The most dominate female in Canadian history, Maria 6J finished her show career as the undefeated, four time major winner. Those that have witnessed her appreciate her overwhelming body mass, shear density and smooth shoulder. A hard to make look of balance and three-dimensional body type lead to an abundance of mating possibilities.

The Wild Cheri 3269 donor is without a doubt the best daughter of the legendary Cheri 205 and that is saying a mouth full when you consider that long list of success from Cheri 205. SULL Wild Cheri during her show career was the 2014 NJHS and NAILE grand champion female. Wild Cheri had produced an impressive list of sale topper and winners herself the past few years. Her Dream Maker daughter was the 2023 Cattleman's Congress calf champion and the reserve overall shorthorn female at the 2023 Jr Show in Fort Worth. That heifer calf sold for an impressive \$47,000 in the 2022 Maternal Legends. She was the result of a past embryo purchase by The Berg Family. In the 2021 Maternal Legends sale 2 more Dream Maker's sold for an average of \$10,000 while 2 more in Meyer Family shorthorn and Pembroke Cattle Co sold for an average of \$20,000. Another Dream Maker was a many time champion on the national stage for Kyia Hendrickson. Here is your chance to grab hold of some new fresh genetics from the Wild Cheri with some young new hot sires of the breed, Current Commodity and the full brother to Dream Maker, SULL Accountability. Wild Cheri had also produce an impressive lineup of Shorthorn Plus progeny that includes the 2020 NJHS Grand Champion Female for Sara Sullivan.

We are offering genetics from the many time Champion CF V8 Mona Lisa Reward 782 SOL ET. She was the Supreme Champion heifer at Keystone in 2018, Reserve Champion heifer at NAILE Jr show, and Grand Heifer at 2019 National Western and Ft. Worth. Now in the donor pen she has produced many high sellers and champions, including Samantha VanVorhis Supreme Female at the 2022 Keystone International. We are offering 3 different matings for your next champion. The Upperhands x 782's have been high sellers and champions across the country, and we expect great things out of the Limit Up mating which will result in $\frac{3}{4}$ Shorthorns. Dignity has taken the Shorthorn Plus world by storm, and we have no doubt these embryos will do the same.

CF CSF MONA LISA 934 PRIMO ET, the 2021 Shorthorn Plus Show heifer of the year is hitting her stride in the donor pen. After hanging champion banners at the Ohio Youth Expo, American Royal, NAILE and Cattleman's Congress, this dominant champion is clicking with every mating as her first ET heifers hit both sale and show rings. At Cates' 2023 Star Search sale, two Ferrari heifers sold for \$15,000 and \$17,000, and one of those was already selected twice as a reserve calf champion at NAILE. As Shorthorn Pluses heat up the show ring, this will be an ideal pairing of Ferrari's genetic power with the absolute elite look and impeccable structure that 934 brings to the game.

Embryos stored at TransOva Maryland.

Jimmy Parnell and I purchased this cow from Sammy Richardson a couple of years ago, so she just began her ET career late in life. Her pedigree is loaded with foundation genetics like Red Riders Drive, the original HR Mona Lisa and Vortec, so add the two bulls that are dominating today, and you should have something pretty special.

We are so excited about this mating. We feel that this is the future of the Armstrong program. Direct Deposit is one of the most talked about Show Bulls of the year and has been described as one of the most impressive bulls the breed has seen in several years; also described as the breed changer that we are looking for. Lady Crystal 2105 arguably has the most phenotypical traits that resemble 434P of all of the great daughters ever made. Don't hesitate to jump on board with these embryos that will be certain to take your program the next level of greatness. Embryos stored at Boviteq.

The Demi Cows have always been a hit in Mackenlee's showstring over the years. These sexed female embryos would be sibs to MAC DRAMATIC DIVA C015. As a calf she was Third overall Bred and Owned Female at 2022 Jr Nationals. She also went on to 2023 Champion female at the Texas Preview Show and finished with another Third Overall Bred and Owned Female at the 2023 Jr Nationals in Iowa. This cow family has a history and a list of proven winners!

If this mating doesn't get your blood pumping, I'm not sure what will! CF CSF Demi 6100 has proven herself not only in the show ring, but as a fantastic donor as well. Among her many titles, she won reserve grand champion shorthorn at NWSS in 2018 and was only beaten by her maternal sister. She is extremely fertile and is a wonderful producer for us with an IVF embryo average of ten eggs per flush. She has wonderful feet and her udder quality is exceptional. MFS Dream Weaver has quickly become one of the most sought after bulls in the shorthorn breed. With semen limited to package holders, this is your chance to still be involved in this breed changing bull. If you are looking for embryos that will produce top tier calves in the show ring and the donor pen, this embryo package is for you. Embryos are stored at Trans Ova.

The first embryos to be offered by our 59F Donor & sired by the high selling Gilman's Greens Fork 50K who sold in the Summit sale last year to Shadybrook Shorthorns. It is no secret to anyone that this cow is as highly revered of a female as we have on the farm. Her sons have caught the attention of those that have seen them this fall, they will lead our pen of bulls & highlight our bull sale in February. 59F's daughter's progeny are rising to the top of their respected class as she continues to pass on the genes. Her production ratios show incredible birth to weaning spread and as an added bonus her embryos are sticky.

This mating is everything the shorthorn plus side of the game has been waiting for! Backed by one of the most powerful and successful cow families in the industry. The long list of successful full siblings to "Sweet Dreams" includes Cate's Farms 140,000\$ High Seller that went on to be Ferree's many time National Champion. Next on the list is Schaeffer's LIMIT UP that dominated the 2022-2023 show circuit including Show Bull of Year & Reserve Supreme Overall Bull at Cattleman's Congress. They continue to sweep National Shows across the country most recently by the Swaim Family at Louisville. "Sweet Dreams" a numerous time champion herself made a big splash with her first calf at side capturing Reserve Overall Shorthorn Plus at Cattleman's Congress last year as a Cow-Calf Pair. Her second natural calf is a full sibling to these embryos, she herself has made a break out statement already! Capturing Reserve Shorthorn Plus Female in both the Junior & Open at NILE in October and division champion just recently at Louisville, from day one we knew this mating was knock out! Embryos Register 50% Shorthorn Plus

Here's your chance to own semen out of the 2021-2022 National Show Bull of the Year, 2021-2022 4 time Grand Champion Shorthorn Bull - Keystone, American Royal, NAILE, and Ft. Worth. His calves are starting to hit the ground here at LSA Shorthorns and are showing real promise. Out of the handful of calves born so far to various sized females, the calves are averaging around 65 pounds at birth. Sired by the popular Boardwalk 530C, his calves are bringing the style and quality that are desired in the show ring.

ROYALLA ROCKSTAR K274 x DIAMOND ZEALOUS BARONESS 5Z

70

10 UNITS CONVENTIONAL SEMEN CONSIGNED BY: GSKI SHORTHORNS

Diamond Hendrix is a true outcross bull that performs in the show ring as well as the real world. Sired by Royalla Rockstar out of Diamond Zealous Baroness 5Z, this roan stud has hung multiple banners in Canada and has an excellent calving ease record. His 12 year old dam continues to thrive in the harsh Canadian climate and maintain a 366 day calving interval. Hendrix semen is not available on the open market so here's your chance. Polled, triple clean, and in the top 5% of the breed for CED and \$CEZ.

Dear SYDF Supporter,

Welcome to the pages of both Summit National Sales, OKC and Denver. We sincerely appreciate your interest and support in Shorthorn Genetics and the Shorthorn Youth Development Fund (SYDF). It is simply amazing to me, that in three short years since the inception of the SYDF, the progress made in support of Shorthorn Youth. None of this would be possible without you and the tremendous volunteers of the SYDF Board of Directors. I am honored to serve on this Board with Julie McMahon French, Nancy Grathwohl-Heter, Jerry Nickel, Kevin Wendt and Montie Soules. I would like to send out a big thank you to Shelby Diehm and the entire American Shorthorn Association Staff for all the hard work they put in on behalf of Shorthorns and SYDF.

Please take some to review the SYDF lots selling both in OKC and Denver to work toward continuing our mission to support the Shorthorn Youth of America.

As always, if I can be of assistance please reach out.

Sincerely,
Jeff K. Aegerter

The Shorthorn Youth Development Fund was established in 2020 to provide financial support to develop Shorthorn Youth as cattle producers and responsible, productive citizens. The fund is dedicated to enriching the lives of youth interested in agriculture, through support of the educational & leadership activities of the American Junior Shorthorn Association.

The SYDF is a non-profit organization and resource that allows you to directly invest in the future of the breed that is your business, your lifestyle and your passion. This platform streamlines the donation process to make contributing to youth more accessible to everyone, especially those whose business directly benefits from junior and family customers.

There are many ways to donate. You can donate a lot in your sale to become part of the Royal Society Club or make an annual pledge to the Shorthorn Red, White and Roan Club. Membership level for each club is based on the actual monetary value of your donation. Club members receive recognition in many forms.

The fund accepts checks, cash and credit cards. You can even set up your contribution to be billed directly to your DigitalBeef Registry Account. No contribution is too small, and ever dollar counts!

By making the commitment to pay it forward through your pledge to the SYDF, today's breeders accept responsibility of seeing to it that our youth have the opportunities they need to be the breeders of tomorrow!
Contact shelby@shorthorn.org if you have any questions or would like to donate.

THE 2024 NATIONAL SHORTHORN SALE

SUMMIT

AT OKC 

The central graphic features a purple silhouette of a city skyline at the top. Below it, the text 'THE 2024 NATIONAL SHORTHORN SALE' is centered. The word 'SUMMIT' is written in a large, bold, dark blue font. Below 'SUMMIT', the text 'AT OKC' is followed by the 'Cattlemen's Congress' logo, which consists of a stylized arrow pointing up and down with the words 'CATTLEMEN'S CONGRESS' to its right.
