If an animal does not have DNA parent verification completed at that time, they will be ineligible to show. IBBA reserves the right to collect DNA samples at any IBBA-sanctioned show. Collection will be conducted by random draw for retesting of parentage at the association’s expense. At the six national IBBA-sanctioned shows, three random samples will be collected from Brangus and UltraBlack entries and three random samples will be collected from Red Brangus and UltraRed entries. If the calf at side is over 90 days of age by the date of show check-in, it must have parent verification completed by show check-in.
